Product Description

Self Adhesive Color Vinly For Cutting Plotter

Detail Description

1.**Material**:Self adhesive color vinyl is typically made from high quality, flexible PVC (polyvinyl chloride) material. PVC is know for its durability, flexibility, and weather resistant properties, making it suitable for both indoor and outdoor applications.
2.**Adhesive Backing**: The vinyl sheet comes with an adhesive backing that allows it to stick to a wide range of surfaces such as glass, metal, plastic, wood, and more. The adhesive is specially formulated to provide a strong bond while also allowing for easy application and removal.
3. **Variety of colors**:Self adhesive color vinyl is avaliable in a wide array of colors, including solid colors, metallic finishes, and specialty finishes like matte and glossy. This variety allows for creative and customized designs for various projects.
3. **Compatibility**: This type of vinyl is designed to work with cutting plotters or vinyl cutters, which are machines equipped with a cutting blade that precisely cuts designs or shapes into the vinyl material based on digital vector files.
4. **Application Surface**: Self adhesive color vinyl is versatile and can be applied to a wide range of surfaces, such as vehicle windows, signage, walls, banners, laptops, mobile devices, and so on.
5. **Weed and transfer tape**: When using self adhesive vinyl with a cutting plotter, the process typically involves "weeding", which is the removal of excess vinyl from the design, and the use of transfer tape to transfer the cut design onto the desired surface accurately. We also offer this transfer tape. Welcome to contact us.
