Product Description

Durable and Versatile Decorative PVC Foil for Cabinets Length 100m-400m

Product Description:

Our **PVC foil** is primarily made from *Polyvinyl Chloride (PVC)*, a synthetic plastic material known for its durability, flexibility, and ease of processing. It is available in a wide range of colors, patterns, and textures, and can mimic the look of natural materials such as wood, stone, fabric, or metal, providing a cost-effective alternative to these materials while retaining a high-quality aesthetic. It can be applied to a variety of surfaces, including doors, cabinets, furniture, and walls. Our PVC foil is renowned for its resilience to deterioration and strength, and is frequently used in high-traffic locations. It is easy to maintain and usually just needs to be wiped down once a week with a moist cloth. The affordability of PVC decorative foil in comparison to natural materials is one of its main benefits. A large range of styles and finishes are available from manufacturers, enabling modification to meet project specifications and personal design preferences. It is commonly used in residential and commercial settings, such as kitchen and bathroom cabinets, interior doors, wall paneling, furniture surfaces, retail displays, and much more.

Technical Parameters:

The thicknesses of our products are from 0.1 mm to 0.5 mm.
The widths of our products are 1260 mm and 1400 mm.
We provide rolls of length from 100 m to 400 m.
We offer hundreds of wood grain designs for customers to choose from.
The available surface treatments we offer include matt, super matt, embossed, high gloss, and soft touch.
In addition, we provide OEM, ODM, and customized services.

Applications:

Product Description

Material

Our PVC foil is comprised of Polyvinyl Chloride (PVC), an artificial plastic material renowned for its durability, flexibility and ease in processing.

Appearance

Our PVC foil comes with a variety of colors, patterns and textures. It can effortlessly imitate the look of natural materials such as wood, fabric, stone and metal, while providing a cost-efficient substitute.

Versatility

Our foil can be used on various surfaces including but not limited to, doors, cabinets, furniture, and walls. It can stick on different substrates and can be applied for various purposes in the interior.

Durability

Realsun Deco PVC foil is well-thought as a reliable material because of its resistance from unraveling and strength. That is why it is widely used in high-traffic areas.

Maintenance

Our PVC foil demands minimal maintenance after installation. It is fairly easy to maintain and only requires occasional wiping down with a damp cloth.

Cost-effective

Our PVC foil's main advantage is its low-cost, in comparison to natural materials, which makes it possible to have an elegant design without costing an arm and a leg.

Modification

PVC foil manufacturers provide a vast array of styles and finishes, allowing customers to modify the foil to match project specifications and personal design preferences.

Application

Decorative PVC foil is usually used in residential and commercial objects such as kitchen and bathroom cabinets, door panels, wall coverings, furniture surfaces, retail shelves, and more.
