Product Description

Furniture PVC Printable Film for Doors Walls Ceilings

Product Description:

Our **Polyvinyl Chloride (PVC) decorative foil** is primarily made from PVC, a synthetic plastic material known for its durability, flexibility, and ease of processing.

It is available in a wide range of colors, patterns, and textures, which can mimic the look of natural materials such as wood, stone, fabric, or metal. It is a cost-effective alternative to these materials, while retaining a high-quality aesthetic.

Our pvc foil can be applied to a variety of surfaces, including doors, cabinets, furniture, walls, and more. It adheres well to different substrates and can be used in different area in interior. Decorative pvc foil is commonly used in both residential and commercial settings for applications such as kitchen and bathroom cabinets, interior doors, wall paneling, furniture surfaces, retail displays, and more. Realsun Deco PVC foil is renowned for its resilience to deterioration and strength, making it a great choice for high-traffic locations. Besides, it requires little upkeep once it is placed, and usually just has to be wiped down once a week with a moist cloth.

The affordability of pvc decorative foil in comparison to natural materials is one of its main benefits. It makes it possible to create upscale aesthetics without incurring the related expenses. Plus, there is a large range of styles and finishes available from manufacturers to meet project specifications and personal design preferences.

Technical Parameters:

This listing is for our PVC Foils. They come in a variety of thicknesses; 0.1mm-0.5mm and widths; 1260mm and 1400mm. This foil is supplied in lengths of 100-400m/roll.

We offer a wide selection including wood grain, solid color, marble, brick and many more designs. Additionally, our PVC foils have a range of surface treatments like matt, super matt, embossed, high gloss and soft touch.

We not only provide the finest quality PVC foils, but also offer OEM, ODM and sample services which are all available.

Applications:

Membrane Press (vacuum press) is suitable for cover on MDF, particleboard, wooden board, fiberboard, such as doors, kitchen cabinet, wardrobe and furniture, etc. It is capable of cover embossed board and cover five surfaces at same time.
