- Highlight: **Wood Grain Furniture Adhesive Film, Cabinet Wrap Film 1260mm,**

Product Description

Product Description:

Our **pvc foil** is primarily made from **Polyvinyl Chloride (PVC)**, a synthetic plastic material known for its **durability, flexibility, and ease of processing**. It is available in a wide range of **colors, patterns, and textures**. It can mimic the look of **natural materials** such as **wood, stone, fabric, or metal**, providing a **cost-effective** alternative to these materials while retaining a **high-quality** aesthetic. Our foil can be applied to a variety of surfaces, including **doors, cabinets, furniture, walls, and more**. It **adheres well to different substrates** and can be used in different area in interior. Realsun Deco PVC foil is renowned for its **resilience to deterioration and strength**. Because of its durability, it is frequently used in **high-traffic locations** such as commercial areas. Our pvc foil requires little **upkeep** once it is placed. It is simple to maintain and usually just has to be wiped down once a week with a moist cloth. The **affordability** of pvc decorative foil in comparison to **natural materials** is one of its main benefits. It makes it possible to create **upscale aesthetics** without incurring the related expenses. A large range of **styles and finishes** are available from manufacturers, enabling **modification** to meet project specifications and personal design preferences. Decorative pvc foil is commonly used in **residential and commercial** settings for applications such as **kitchen and bathroom cabinets, interior doors, wall paneling, furniture surfaces, retail displays, and more**.

Technical Parameters:

We offer many thickness options for our aluminium foil products, ranging from 0.1mm to 0.5mm. The widths we provide are 1260mm and 1400mm, while the lengths of each roll can range from 100 to 400m. We also have a wide variety of designs to choose from, including wood grain, solid color, marble, brick and more. Additionally, our products can come in different surface treatments, such as matt, super matt, embossed, high gloss, and soft touch. We also accept both OEM and ODM services.

Applications:

Different Process for different application:

1.Membrane Press (vacuum press):

This process is used for covering materials on MDF, particleboard, wooden board, fiberboard, etc for doors, kitchen cabinet, wardrobe, furniture, etc. It can cover embossed board, and cover five surfaces at same time. With this process, the thickness of materials is between 0.20 to 0.50mm, the width is 1260mm or 1400mm, and the length is from 100 to 300m/roll.

2.Wrapping Profiles:

This process is used in covering materials on all kinds of profiles, like wood profile, aluminum profile, PVC profile, etc. for door frame, window sill, base channel, PVC ceiling, etc. The thickness of materials provided in this process is between 0.12 to 0.18mm; the width is from 40 to 1260mm, and the length is from 300 to 800m/roll.

3.Cold Laminating:

This process is used for applying laminate on all kinds of flat panels, such as wood panel, steel panel, aluminum panel, PVC panel, etc. for doors and furniture. With this process the thickness of the materials can be 0.12 to 0.20mm; the width of materials can be 1240 to 1260mm, and the length of materials is from 300 to 500m/roll.

4.Hot Laminating:

This process is used for covering materials on PVC panel, steel panel, aluminum panel for doors, skirting and so on. It is able to provide the materials with thickness between 0.16 to 0.30mm, the width of materials is 1260mm, and the length of materials is from 200 to 300m/roll.

5.Self-adhesive:

This process can put materials on any smooth surface for furniture and indoor decorations. The thickness of materials provided by this process is between 0.10 to 0.20mm; the width of materials can be 600mm or 1220mm, the length of materials is from 5 to 50m/roll.

Customization:

Customized PVC Interior Film from Realsun Deco

Realsun Deco is the leading brand in providing high-quality PVC Interior Film, which is available with customizable options. It is produced in Foshan, China, and you can place a minimum order of 3000m.
