

Brick Designed PVC Interior Film Kitchen Cabinet Film For Lamination Process

Our Product Introduction

for more products please visit us on realsundeco.com

Basic Information

- Place of Origin: Foshan, China
- Brand Name: Realsun Deco
- Minimum Order Quantity: 3000m
- Price: Negotiable
- Packaging Details: Pack in roll
- Delivery Time: 15-20 days
- Payment Terms: T/T 30% down payment, 70% balance before shipment
- Supply Ability: 500000m/month

Product Specification

- Length: 100-400m/roll
- Design: Wood Grain, Marble, Brick, Stone, And So On
- Surface: Glossy, Matte, Embossed, Supper Matt, Soft Touch Etc.
- Usage For Production Process: Lamination, Vacuum Membrane Press, Hot Press, Wrapping And So On
- Width: 1260mm, 1400mm
- Packaging: Pack By Roll With Foam Sheet, Kraft Paper, Plastic Sheet, And Pallet, Etc.
- Service: OEM, ODM
- Thickness: 0.10mm-0.50mm
- Highlight: **Brick Designed PVC Interior Film, Lamination Process kitchen cabinet film,**

Product Description

Product Description:

Our PVC Foil is primarily made from Polyvinyl Chloride (PVC), a synthetic plastic material known for its durability, flexibility, and ease of processing. It is available in a wide range of colors, patterns, and textures, which makes it easy to mimic the look of natural materials such as wood, stone, fabric, or metal.

Versatile in nature, the foil can be applied to a variety of surfaces, including doors, cabinets, furniture, walls, and more. It adheres well to different substrates and can be while used in different area in interior.

Realsun Deco PVC Foil is renowned for its resilience to deterioration and strength and is often used in high-traffic locations. To maintain, it requires little upkeep and usually just has to be wiped down once a week with a moist cloth.

The affordability of pvc decorative foil in comparison to natural materials is one of its main benefits. It makes it possible to create upscale aesthetics without incurring the related expenses. A large range of styles and finishes are also available from manufacturers, enabling modification to meet project specifications and personal design preferences.

Decorative pvc foil is commonly used in residential and commercial settings for applications such as kitchen and bathroom cabinets, interior doors, wall paneling, furniture surfaces, retail displays, and more.

Technical Parameters:

We provide products with high quality features such as:

Thickness: from 0.1mm up to 0.5mm.

Width: 1260mm and 1400mm.

Length: 100-400m per roll.

Design: including Wood grain, Solid color, Marble, Brick and more.

Surface treatment: Matt, Super matt, embossed, high gloss, soft touch.

Also, we offer custom service such as **OEM, ODM, Customerized**.

Applications:

The process for manufacturing and application differ with respect to the materials.

Membrane Press (vacuum press): This process is used for thickness in the range of 0.20-0.50mm, widths of 1260mm and 1400mm and length of 100-300m/roll. Materials such as MDF, particleboard, wooden board, fiberboard, etc can be covered for applications such as doors, kitchen cabinet, wardrobe, furniture, etc. This process also allows to cover embossed boards with five surfaces at the same time.

Wrapping Profiles: This process is used for thicknesses of 0.12-0.18mm and widths of 40-1260mm and length of 300-800m/roll. It allows to cover materials like wood profile, aluminum profile, PVC profile, etc for applications like door frames, window sills, base channels, PVC ceilings, etc.

Cold Laminating: With thicknesses of 0.12-0.20mm, width of 1240-1260mm and length of 300-500m/roll, the cold laminating process allows to cover materials such as wood panels, steel panels, aluminum panels, PVC panels, etc. It is used for applications like doors and furniture.

Hot Laminating: Thickness range of 0.16-0.30mm, width of 1260mm and length of 200-300m/roll, hot laminating is used to cover PVC panel, steel panel, aluminum panel for doors, skirting, etc.

Self-adhesive This is used with a thickness between 0.10-0.20mm, widths of 600mm and 1220mm and length of 5-50m/roll. It can be applied to any smooth surface for furniture and indoor decoration applications.
