

1400mm Width PVC Lamination Film For Vacuum Membrane Press Process

Our Product Introduction

for more products please visit us on realsundeco.com

Basic Information

- Place of Origin: Foshan, China
- Brand Name: Realsun Deco
- Minimum Order Quantity: 3000m/model
- Price: Negotiable
- Packaging Details: Pack in roll
- Delivery Time: 15-20 days
- Payment Terms: T/T 30% down payment, 70% balance before shipment
- Supply Ability: 500000m/month

Product Specification

- Design: Wood Grain, Marble, Brick, Stone, Plain Color Etc.
- Width: 1260mm, 1400mm
- Material: PVC
- Usage: Lamination, Vacuum Membrane Press, Wrapping, Hot Press And So On
- Length: 100m-400m/roll
- Surface: Glossy, Matte, Embossed, Super Matte, Soft Touch
- Thickness: 0.1mm-0.5mm
- Application: Furniture, Door, Wall, Kitchen Cabinet, Ceiling Etc.
- Highlight: **1400mm PVC Lamination Film, Membrane Press PVC Lamination Film,**

Product Description

Lamination PVC Sheet For Vacuum Membrane Press Process- 1400mm Width

Product Description:

Our **pvc foil** is primarily made from *Polyvinyl Chloride (PVC)*, a synthetic plastic material known for its durability, flexibility, and easy processing. With a wide range of colors, patterns, and textures, it can provide a cost-effective alternative to natural materials such as wood, stone, fabric, or metal while retaining a high-quality aesthetic.

The versatility of our foil makes it possible to be applied to a variety of surfaces, such as doors, cabinets, furniture, and walls. As well as being highly durable, it requires little maintenance and is simple to care for by wiping it down weekly with a damp cloth.

The affordability of **pvc decorative foil** compared to natural materials is one of the main benefits, making it possible to gain an upmarket look without premium costs. Manufacturers provide a large selection of styles and finishes, allowing for customisation to meet project specifications and individual design preferences.

Decorative pvc foil is commonly used both in calls and commercial settings; it can be seen on kitchen and bathroom cabinets, interior doors, wall paneling, furniture surfaces, retail displays, and much more.

Technical Parameters:

We offer **high quality** PVC films with multiple thickness ranging from 0.1 to 0.5mm and 1260 to 1400mm in width. The length of the roll could be selected from 100 to 400m. We provide various design options such as wood grain, solid colour, marble, brick and so on. In addition, our PVC films offer a variety of surface treatment like matt, super matt, embossed, high gloss and soft touch. We also welcome OEM and ODM services regarding the PVC films.

Applications:

The materials used in different applications are different. **Membrane Press (vacuum press)** is used to cover materials like MDF, particleboard, wooden board and fiberboard on furniture such as doors, kitchen cabinet and wardrobe. It covers embossed board and can cover five surfaces at the same time. Moreover, it has a thickness range from 0.20-0.50mm and width from 1260mm to 1400mm. The length of a roll is usually between 100-300m.

Wrapping profiles can cover a variety of profiles including wood, aluminum and PVC profiles for door frames, window sills or base channels. The thickness of the material is 0.12-0.18mm, the width is between 40-1260mm and the length of a roll is 300-800m.

When it comes to **cold laminating**, the thickness range is 0.12-0.20mm, the width is 1240-1260mm and the length of a roll can be 300-500m. This process is used for covering materials such as wood panel, steel panel and aluminum panel for use in doors and furniture.

For **hot laminating**, the thickness of materials range from 0.16-0.30mm, with a width of 1260mm and roll length of 200-300m. This application is used in covering PVC panel, steel panel and aluminum panel for doors and skirting.

Finally, **self-adhesive** usually has a thickness range from 0.10-0.20mm, 600mm/1220mm in width and 5-50m/roll in length. It can be applied to any smooth surface, such as for furniture and indoor decorations.

Customization:

PVC Lamination Film Custom Services

Product Details

Brand Name: Realsun Deco

Place of Origin: Foshan, China

Minimum Order Quantity: 3000m/model

Price: Negotiable

Packaging Details: Pack in roll
