## Product Description

### Product Description:

Polyvinyl Chloride (PVC) is the main ingredient of our PVC foil and a synthetic plastic. It is famous for its excellent strength, flexibility and processing simplicity. We offer a variety of colors, patterns and textures for our PVC foil. It can imitate real materials like wood, stone, cloth and metal, while being more affordable and maintaining a premium appearance. Our foil is suitable for a wide range of surfaces, such as walls, doors, cabinets and furniture.

Realsun Deco PVC foil is well known for its strength and resistance to deterioration, making it the perfect choice for high-traffic areas. Maintenance of our PVC foil is easy as it only needs to be cleaned once a week with a wet cloth. One of the primary advantages of pvc decorative foil is its low cost in comparison to natural materials. This allows for the creation of sophisticated aesthetics without the inherent costs.

Manufacturers offer a wide variety of styles and finishes, making it possible to modify to satisfy project requirements and individual design preferences. Decorative PVC foil is used for wall paneling, furniture surfaces, retail displays, interior doors, kitchen and bathroom cabinets and other uses in both home and commercial settings.

### Technical Parameters:

We offer our customers aluminium foil of superior quality with various thickness, ranging from 0.1mm to 0.5mm. What's more, you can choose between two pre-set widths, 1260mm and 1400mm. The length of its roll is also highly adjustable, from 100 to 400 meters. We offer various designs like Wood grain, Solid color, Marble, Brick and more to meet different tastes and preferences. The surface treatment of our aluminium foil can be Matt, Super matt, embossed, high gloss or soft touch. Moreover, we can provide OEM and ODM services as per your specific needs.
