#### Basic Information

- Place of Origin: Foshan, China
- Brand Name: Realsun Deco
- Minimum Order Quantity: 3000m/model
- Price: Negotiable
- Packaging Details: Pack in roll
- Delivery Time: 15-20 days
- Payment Terms: T/T 30% down payment, 70% balance before shipment
- Supply Ability: 500000m/month

#### Product Specification

- Material: PVC
- Liner Paper: 80gsm, 100gsm, 120gsm
- Waterproof: Yes
- Durability: Excellent
- Surface: Glossy/Matte/Super Matte/Embossed/Soft Touch
- Size: 122cm\*50m, 60cm\*10m
- Thickness: 0.08mm-0.15mm
- Design: Wood Grain, Marble, Brick, Stone, Plain Color Etc.
- Highlight: **Embossed Adhesive Backed Plastic Film, Embossed Wood Grain Adhesive Film**

## Product Description

### Waterproof Embossed Surface Self Adhesive Films Roll in PVC Material - B2B Supply

#### Product Description:

Our self adhesive PVC film is composed primarily of polyvinyl chloride, an extremely durable and versatile plastic material. To ensure a secure bond, a layer of pressure sensitive adhesive is added to the back of the film, along with a protective liner paper. This liner paper must be removed prior to use. Different thicknesses are available, and the choice depends upon your specific needs and application. Our PVC film is available in several different finishes, including glossy, matte, satin, and textured. Furthermore, an extensive range of colors and patterns can be obtained, such as wood grain designs, marble designs, and brick designs. Our PVC film has a variety of uses; it is regularly used for wall and furniture covering. Additionally, it is a popular choice for craft and DIY applications due to its ease of use. We offer the PVC film in varying thicknesses and finishes to match all your needs.

#### Technical Parameters:

##### Product Introduction

We offer a wide array of laminate products in thicknesses between 0.1mm and 0.12mm. Our selection includes lots of widths, such as 1220mm and 600mm. The length of each roll typically ranges between 50m or 10m, depending on your needs. Plus, we offer a vast array of design options, such as wood grain, solid color, marble, brick, and more. We have both matt, super matt, embossed, and high gloss surfaces. We are also glad to offer our customers with OEM/ODM services. **Quality Assurance**

We are committed to providing our customers with the highest quality of products. All materials are strictly inspected before production. To guarantee a superior finish on our products, our craftsmen pay fine attention to the details. We ensure customer satisfaction by providing all laminates with our soft touch finishing.

#### Applications:

Self-adhesive PVC film is a versatile material that can be used for various applications, including home improvement, crafts, signage, and more. Here's a general guide on how to apply self-adhesive PVC film:

Materials you'll need:

Self-adhesive PVC film

A clean, smooth surface to apply the film to (e.g., furniture, walls, windows, or any other suitable surface)

A measuring tape or ruler

A sharp utility knife or scissors

A squeegee or a credit card

A clean cloth or sponge

A spray bottle with soapy water (optional)

Steps for application:

**Prepare the surface:** Ensure that the surface you plan to cover with self-adhesive PVC film is clean, dry, and smooth. Remove any dust, dirt, or imperfections. If the surface is dirty, clean it thoroughly and let it dry completely.

**Measure and cut:** Measure the dimensions of the surface you want to cover and add a few extra inches to each side to allow for trimming. Cut the self-adhesive PVC film to the desired size using a sharp utility knife or scissors. Be precise in your measurements and cutting to ensure a proper fit.

**Peel off the backing:** Carefully peel back a few inches of the backing paper from one end of the PVC film. Avoid touching the adhesive side to prevent fingerprints and dirt from sticking to it.

**Apply the film:** Begin applying the exposed adhesive side of the PVC film to the surface. Start at one corner or edge and align it with the surface. As you apply the film, gradually peel off more of the backing paper, smoothing the film onto the surface as you go. You can use a squeegee or a credit card to help remove any air bubbles and ensure a smooth, even application.

**Smooth out bubbles:** If you notice any air bubbles trapped under the film, use the squeegee or credit card to gently push them out towards the edges. Work from the center outward to expel the bubbles completely.

**Trim excess:** Once the film is applied smoothly, use a utility knife or scissors to trim any excess film along the edges. Be cautious when cutting to avoid damaging the surface underneath.

**Finish and clean:** After trimming, go over the entire surface with a clean cloth or sponge to ensure that the PVC film is securely adhered and free from any air bubbles or wrinkles. If you used soapy water during application, wipe away any excess water or soap residue.

**Final inspection:** Inspect the surface to ensure that the PVC film is securely in place and free from imperfections. If you encounter any issues, gently lift the film and reapply as needed.

Self-adhesive PVC film can be used for a wide range of purposes, so make sure to follow the specific instructions provided by the manufacturer if you have a unique application in mind. Proper surface preparation and careful installation are key to achieving a professional-looking result.

#### Customization:

Customized Self Adhesive PVC Film Service

Brand Name: Realsun Deco  
Place of Origin: Foshan, China  
Minimum Order Quantity: 3000m/model  
Price: Negotiable

We offer 24/7 support and will do our best to answer any questions you may have. We also provide installation instructions and maintenance tips to ensure that you get the most out of your purchase.

If you encounter any issues during the process of using Self Adhesive PVC Film, our customer service team is here to help you resolve them. We have a number of resources available for your convenience, such as online tutorials and troubleshooting guides. If you need more in-depth assistance, our experienced technical staff is ready to assist.

Ultimately, our goal is to ensure that you get the most out of your Self Adhesive PVC Film purchase. Our customer service team is available to help you with any questions or concerns you have about the product. We look forward to hearing from you and helping you get the most out of your purchase.

## Packing and Shipping:

---

### Self Adhesive PVC Film Packaging and Shipping:

The PVC film is packaged in rolls of various sizes according to customer requirements. The rolls are then wrapped in plastic wrap to protect them from moisture and dust. The rolls are then packed in cardboard boxes or crates for safe shipping. The shipping labels are clearly marked with the weight, size, and destination of the shipment. The shipments are then sent via ground or air freight depending on the customer's needs.
