- Highlight: **OEM Self Adhesive Vinyl Film**,
                  ODM Self Adhesive Vinyl Film,
                  ODM Self Adhesive Vinyl Roll

Product Description:

Self Adhesive Color Vinyl: Durability and Versatility

Self adhesive color vinyl is made from high quality, flexible PVC (polyvinyl chloride) material, providing it with a durable, flexible, and weather-resistant construction that is suitable for both indoor and outdoor use.

The vinyl is designed with an adhesive backing that can stick to a multitude of surfaces, such as glass, metal, plastic, and wood, held down by an adhesive specially formulated for stronger bonding while maintaining easy application and removal.

This vinyl also offers a huge variety of colors, from solid colors to metallic finishes, to matte and glossy special effects, enabling creative and customized designs for all projects.

Further, self adhesive vinyl is compatible with cutting plotters and vinyl cutters that are capable of cutting the vinyl material with digital vector files. It can be applied to a variety of surfaces, such as vehicle windows, walls, banners, laptops, and mobile devices.

The installation of self adhesive vinyl with a cutting plotter also requires "weeding", the removal of excess vinyl, and transfer tape to securely transfer the designs onto the desired surface. We offer the transfer tape to complete your set.

For reliable and versatile vinyl material, we offer self adhesive color vinyl. Please contact us for further information.

Technical Parameters:

The thickness of our product is 0.08mm, and the width is 1220mm or 600mm according to your needs.
The length is available in 50m/roll or 45m/roll.
We provide a large variety of colors, and there are more than 30 colors you could choose from.
For the surface treatment, we offer matt and high gloss finish.
We can also provide OEM and ODM service.

Applications:

Self-adhesive color vinyl is a versatile material that can be used for various creative and practical applications. Its adhesive backing allows you to easily apply it to different surfaces. Here are some common uses for self-adhesive color vinyl:

Signage and Banners: Self-adhesive color vinyl is commonly used for creating signs and banners. You can cut it into letters, shapes, or graphics to design custom signs for businesses, events, or personal use.

Vehicle Graphics: Many businesses and individuals use self-adhesive vinyl to create vehicle graphics, including decals, wraps, and promotional messaging on cars, trucks, and even boats. It's an effective way to advertise and customize vehicles.

Wall Decals: Self-adhesive vinyl can be used to create decorative wall decals and graphics for homes, offices, and retail spaces. It's a popular choice for adding personalized touches to interior design.

Window Graphics: Self-adhesive vinyl can be applied to windows for a variety of uses, such as privacy, advertising, and window displays. For one-way window graphics, perforated vinyl is frequently utilized.

Custom Apparel: Heat transfer vinyl, or HTV, is a kind of self-adhesive vinyl that is applied to textiles and clothes to produce unique designs. Custom T-shirts, caps, and other clothing items are made with it rather frequently.

Craft Projects: Color vinyl that sticks to itself is frequently used in a variety of craft projects. It works well for making personalized labels, stickers, and other home decor products.

Promotional Products: on display logos, branding, or customized messaging, vinyl stickers and decals can be added on promotional products like notebooks, water bottles, laptops, and phone cases.

Architectural Details: Vinyl film can be used in architectural applications to add ornamental features to surfaces such as doors, cabinets, and furniture, as well as to create faux finishes and duplicate the look of wood or other materials.

Floor Graphics: Self-adhesive vinyl can be used to make long-lasting floor graphics. These are frequently used to guide foot traffic or advertise products in retail establishments and events.

Labels, safety signs, and wayfinding signs are made of self-adhesive vinyl and are utilized in public areas, hospitals, schools, and industrial settings.

Décor for Events and Seasons: You may make short-term decorations for events, parties, or holidays with self-adhesive vinyl. Without harming surfaces, it is simple to apply and remove.

Sports Equipment: To include branding or personal flair, self-adhesive vinyl graphics can be applied to certain sports equipment, like helmets and skateboards.

It's crucial to choose the appropriate kind of self-adhesive color vinyl (e.g., permanent vs. removable adhesive) for your particular application when employing it. A clean and durable finish also depends on using the right installation methods and surface preparation. For whatever vinyl product you use, be sure you always follow the manufacturer's directions.
