Product Description:

Self adhesive color vinyl is a high-quality option composed of flexible PVC (polyvinyl chloride). This type of material is known for its strength, flexibility, and weather-resistant qualities, and it can be used indoors and outdoors. It's adhesive backing allows it to stick to various surfaces such as glass, metal, plastic, wood, and more. The specially-formulated adhesive ensures a strong bond and easy application and removal.

Self adhesive color vinyl comes in a variety of colors including solid colors, metallic finishes, and specialty finishes such as matte and glossy. Allowing for creative and customized designs, the vinyl can be cut into various designs and shapes using specialized cutting plotters or vinyl cutters. It is applicable to a wide range of surfaces such as vehicle windows, signage, walls, banners, laptops, mobile devices, and more.

During the cutting process, "weeding" is required to remove any excess vinyl material. Additionally, the use of transfer tape is necessary to transfer the cut design from the cut sheet accurately and onto the desired surface. Transfer tape is also available from us, so don't hesitate to reach out if you need any.

Technical Parameters:

This material has a thickness of 0.08mm. Along with its width of 1220mm or 600mm, it is available in rolls of 50m or 45m. It is available in more than 30 colors and has two types of surfaces available, Matt and high gloss.

We also offer OEM and ODM services when ordering this material.

Applications:

Self-adhesive color vinyl is a material that works well for both utilitarian and artistic purposes. You can effortlessly attach it to many surfaces thanks to its sticky backing. Self-adhesive color vinyl is frequently used for the following purposes:

Banners and Signage: Self-adhesive colored vinyl is frequently used to make banners and signs. To create unique signage for companies, events, or personal usage, you can cut it into letters, shapes, or other designs.

Auto Graphics: Self-adhesive vinyl is widely used by companies and private citizens to make decals, wraps, and advertising text for automobiles, trucks, and even boats. It works well for car customization and advertising.

Wall Decals: Self-adhesive vinyl can be used to create decorative wall decals and graphics for homes, offices, and retail spaces. It's a popular choice for adding personalized touches to interior design.

Window Graphics: You can apply self-adhesive vinyl to windows for various purposes, including advertising, privacy, and decorative window displays. Perforated vinyl is commonly used for one-way window graphics.

Custom Apparel: Heat transfer vinyl (HTV) is a type of self-adhesive vinyl that is used to create custom designs on clothing and textiles. It's popular for creating personalized T-shirts, hats, and other apparel items.

Craft Projects: Self-adhesive color vinyl is often used in various crafting projects. It's suitable for creating custom stickers, labels, home décor items, and more.

Promotional Products: on display logos, branding, or customized messaging, vinyl stickers and decals can be added on promotional products like notebooks, water bottles, laptops, and phone cases.

Architectural Details: Vinyl film can be used in architectural applications to add ornamental features to surfaces such as doors, cabinets, and furniture, as well as to create faux finishes and duplicate the look of wood or other materials.

Floor Graphics: Self-adhesive vinyl can be used to make long-lasting floor graphics. These are frequently used to guide foot traffic or advertise products in retail establishments and events.

Safety and Wayfinding Signs: Self-adhesive vinyl is used to create safety signs, labels, and wayfinding signage in industrial settings, hospitals, schools, and public spaces.

Temporary and Seasonal Decor: Self-adhesive vinyl can be used to create temporary decorations for holidays, events, or themed parties. It's easy to apply and remove without damaging surfaces.

Sports Equipment: Some sports equipment, such as helmets and skateboards, can be customized with self-adhesive vinyl graphics to add personal style or branding.
