- Highlight: **Self Adhesive Wall Vinyl 122cm, Weather Resistance Self Adhesive Wall Vinyl, 50m colored self adhesive vinyl**

## Product Description

### Product Description:

Self adhesive color vinyl is composed of high quality, highly durable and flexible PVC (polyvinyl chloride) material which is renowned for its weather-resistance and longevity. It is suitable for indoor and outdoor applications and comes with an adhesive backing that allows it to easily stick to a variety of surfaces such as glass, metal, plastic, wood, and more.

This kind of vinyl is offered in a broad colour palette, including solid, metallic, matte and glossy finishes which enable users to craft unique designs for different applications. It communicates well with cutting plotters or vinyl cutters, as it can be accurately cut into designs or shapes based on digital vector files.

Self adhesive color vinyl is extremely versatile. You can apply it to various surfaces like vehicle windows, signage, walls, banners, laptops, mobile devices, and so on. After cutting it out with a cutting plotter or a vinyl cutter, you usually have to weed the extra parts and apply transfer tape to put the design onto desired surfaces accurately. Transfer tapes are also available from our company. Welcome to contact us.

### Technical Parameters:

Thickness

0.08mm

Width

1220mm, 600mm

Length

50m/roll, 45m/roll

Color

We have more than 30 colors available.

Surface Treatment

Matt, high gloss

Service

We accept OEM and ODM orders.

### Applications:

Color vinyl that sticks to itself is a flexible material with a wide range of imaginative and useful uses. Its sticky backing makes it simple to put on many surfaces. Uses for self-adhesive color vinyl are as follows:

**Banners and Signage:** Color vinyl that adheres to itself is frequently used to make banners and signs. You can use it to create unique signs for companies, occasions, or private use by cutting it into letters, shapes, or images.

**Vehicle Graphics:** Self-adhesive vinyl is widely used by companies and individuals to make decals, wraps, and promotional messaging for automobiles, trucks, and even boats. It's a useful technique for car customization and advertising.

**Wall Decals:** Self-adhesive vinyl can be used to create decorative wall decals and graphics for homes, offices, and retail spaces. It's a popular choice for adding personalized touches to interior design.

**Window Graphics:** You can apply self-adhesive vinyl to windows for various purposes, including advertising, privacy, and decorative window displays. Perforated vinyl is commonly used for one-way window graphics.

**Custom Apparel:** Heat transfer vinyl (HTV) is a type of self-adhesive vinyl that is used to create custom designs on clothing and textiles. It's popular for creating personalized T-shirts, hats, and other apparel items.

**Craft Projects:** Self-adhesive color vinyl is often used in various crafting projects. It's suitable for creating custom stickers, labels, home décor items, and more.

**Promotional Items:** Vinyl stickers and decals can be applied to promotional items such as notebooks, water bottles, laptops, and phone cases to display logos, branding, or personalized messages.

**Architectural Details:** In architectural applications, vinyl film can be used to create faux finishes, replicate the look of wood or other materials, and add decorative elements to surfaces like doors, cabinets, and furniture.

**Floor Graphics:** Vinyl that sticks to itself can be used to make long-lasting floor graphics. These are frequently used at retail establishments and events to guide foot movement or advertise goods.

**Self-adhesive vinyl** is used to make safety signs, labels, and wayfinding signage in public areas, schools, hospitals, and industrial environments.

**Festive & Temporary Décor:** You can make transient decorations for occasions, events, or theme parties with self-adhesive vinyl. Applying and removing it is simple and doesn't harm surfaces.

**Sports Equipment:** You can add your own branding or personal touch by customizing certain sports equipment, such skateboards and helmets, with self-adhesive vinyl graphics.

### Customization:

## Support and Services:

---

Our technical support and service for Self Adhesive Vinyl Film includes:

24/7 customer service

Free installation and training

Regular maintenance and repair services

Full range of spare parts

Full technical support

## Packing and Shipping:

---

Packaging and Shipping for Self Adhesive Vinyl Film:

The Self Adhesive Vinyl Film will be packaged in a strong cardboard box padded with foam, and sealed with adhesive tape. It will then be carefully placed in a shipping box with packing materials for further protection. The shipping box should be labeled with the name of the product, shipping address and contact details.

The package will be shipped either by air or ground freight, depending on the destination. We recommend that the Self Adhesive Vinyl Film be shipped by a reliable carrier with tracking information. All shipments will be insured to cover any potential damages or losses.
