## Product Description

Indoor Advertisement Color Cutting Vinyl - White/Black/Red/Yellow/Blue/Green/Grey/Orange

### Product Description:

Self adhesive color vinyl is typically made from high quality, flexible PVC (polyvinyl chloride) material. PVC is known for its durability, flexibility, and weather resistant properties, making it suitable for both indoor and outdoor applications. The vinyl sheet comes with an adhesive backing that allows it to stick to a wide range of surfaces such as glass, metal, plastic, wood, and more. The adhesive is specially formulated to provide a strong bond while also allowing for easy application and removal. Self adhesive color vinyl is available in a wide array of colors, including solid colors, metallic finishes, and specialty finishes like matte and glossy. This variety allows for creative and customized designs for various projects. This type of vinyl is designed to work with cutting plotters or vinyl cutters, which are machines equipped with a cutting blade that precisely cuts designs or shapes into the vinyl material based on digital vector files. Self adhesive color vinyl is versatile and can be applied to a wide range of surfaces, such as vehicle windows, signage, walls, banners, laptops, mobile devices, and so on. When using self adhesive vinyl with a cutting plotter, the process typically involves "weeding", which is the removal of excess vinyl from the design, and the use of transfer tape to transfer the cut design onto the desired surface accurately. We also offer this transfer tape. Welcome to contact us.

### Technical Parameters:

If you're in the market for protective wall covering, look no further. Our product offers an exceptional range of specifications to fit your exact needs. Thickness of our product stands at 0.08mm, and it is offered in widths of 1220mm and 600mm. We also provide two lengths: 50m/roll and 45m/roll. Our customers are spoiled for choice with more than 30 colors available. Various surface treatments, such as matt and high gloss, are also provided. Lastly, our product features OEM and ODM service. We are committed to providing personalized services that cater to our customers' individual needs.

### Applications:

Self-adhesive color vinyl is a versatile material that can be used for various creative and practical applications. Its adhesive backing allows you to easily apply it to different surfaces. Here are some common uses for self-adhesive color vinyl:

- Signage and Banners:** Self-adhesive color vinyl is commonly used for creating signs and banners. You can cut it into letters, shapes, or graphics to design custom signs for businesses, events, or personal use.
- Vehicle Graphics:** Many businesses and individuals use self-adhesive vinyl to create vehicle graphics, including decals, wraps, and promotional messaging on cars, trucks, and even boats. It's an effective way to advertise and customize vehicles.
- Wall Decals:** Self-adhesive vinyl can be used to create decorative wall decals and graphics for homes, offices, and retail spaces. It's a popular choice for adding personalized touches to interior design.
- Window Graphics:** You can apply self-adhesive vinyl to windows for various purposes, including advertising, privacy, and decorative window displays. Perforated vinyl is commonly used for one-way window graphics.
- Custom Apparel:** Heat transfer vinyl (HTV) is a type of self-adhesive vinyl that is used to create custom designs on clothing and textiles. It's popular for creating personalized T-shirts, hats, and other apparel items.
- Craft Projects:** Self-adhesive color vinyl is often used in various crafting projects. It's suitable for creating custom stickers, labels, home décor items, and more.
- Promotional Items:** Vinyl stickers and decals can be applied to promotional items such as notebooks, water bottles, laptops, and phone cases to display logos, branding, or personalized messages.
- Architectural Details:** In architectural applications, vinyl film can be used to create faux finishes, replicate the look of wood or other materials, and add decorative elements to surfaces like doors, cabinets, and furniture.
- Floor Graphics:** Durable floor graphics can be created using self-adhesive vinyl. These are often used in retail spaces and events to direct foot traffic or promote products.
- Safety and Wayfinding Signs:** Self-adhesive vinyl is used to create safety signs, labels, and wayfinding signage in industrial settings, hospitals, schools, and public spaces.
- Temporary and Seasonal Decor:** Self-adhesive vinyl can be used to create temporary decorations for holidays, events, or themed parties. It's easy to apply and remove without damaging surfaces.
- Sports Equipment:** Some sports equipment, such as helmets and skateboards, can be customized with self-adhesive vinyl graphics to add personal style or branding.

When using self-adhesive color vinyl, it's important to select the right type of vinyl for your specific application (e.g., indoor vs. outdoor use, permanent vs. removable adhesive). Additionally, proper installation techniques and surface preparation are essential to ensure a clean and long-lasting result. Always follow the manufacturer's instructions for the specific vinyl product you are using.

Guidance on product maintenance and care.

General advice on product usage.

Updated product information.

Responding to customer inquiries.

We are committed to providing you with comprehensive support and service for Self Adhesive Vinyl Film. If you have any questions or require assistance, please contact us.

## Packing and Shipping:

---

Packaging and Shipping of Self Adhesive Vinyl Film

Self Adhesive Vinyl Film should be packaged in sturdy cardboard boxes or on pallets for easy transport and to minimize damage caused by any external impacts. The boxes should be clearly labeled with the product name and related information. Each roll should be shrink-wrapped with plastic film to protect against water and dust and reduce the possibility of breakage.

When handing over the package, the customer should be provided with a packing slip and invoice that contains the following information: product name, quantity, price, payment method, shipping address, and contact information. The package should also include instructions for use.

Self Adhesive Vinyl Film should be shipped using a reliable and reputable courier service. The package should be tracked until it reaches its destination. The customer should be notified when the package has been dispatched and when it is expected to arrive.
