- Material: PVC
- Usage: Living Room/ Bedroom/ Kitchen/ Bathroom
- Style: Self Adhesive
- Adhesive: Pressure Sensitive Adhesive
- OEM/ODM: Accepted
- Highlight: **Anti fouling Self Adhesive PVC Wallpaper**, **Anti fouling Self Adhesive PVC sticker**

Product Description:

Our self adhesive PVC wallpaper is composed of polyvinyl chloride, a durable and versatile synthetic plastic material. A layer of pressure sensitive adhesive is added to the back of the wallpaper, along with a liner paper. The liner paper is removed before application, and the adhesive securely bonds to a variety of surfaces such as walls, glass, metal, and wood.
Our wallpapers come in varying thicknesses to suit any application or durability needs. They are available in glossy, matte, satin, and textured finishes. You can also choose from a variety of colors and patterns, such as wood grain, marble, and brick designs.
Our self adhesive PVC wallpaper has many uses, from covering walls to furniture. It is a popular choice for craft and DIY projects due to its ease of use.

Technical Parameters:

Our products are incredibly varied in their thickness, ranging from 0.1mm to 0.15mm. We offer widths of 1220mm and 600mm while the length of each roll can be easily customized to either 50m or 10m.
Our product variation includes a number of designs- from wood, solid colors, marbles and bricks-and can be further amended to suit the surface treatment, from matt to super matt finish, embossed, high gloss and a variety of soft touches.
Lastly, we provide both OEM and ODM services for clients.

Applications:

Here's a general guide on how to apply self-adhesive PVC wallpaper:
Materials you'll need:
Self-adhesive PVC wallpaper
A clean, smooth surface to apply the film to (e.g., furniture, walls, windows, or any other suitable surface)
A measuring tape or ruler
A sharp utility knife or scissors
A squeegee or a credit card
A clean cloth or sponge
A spray bottle with soapy water (optional)
Steps for application:
Prepare the surface: Ensure that the wall you plan to cover with self-adhesive PVC wallpaper is clean, dry, and smooth. Remove any dust, dirt, or imperfections. If the surface is dirty, clean it thoroughly and let it dry completely.
Measure and cut: Measure the dimensions of the surface you want to cover and add a few extra inches to each side to allow for trimming. Cut the self-adhesive PVC wallpaper to the desired size using a sharp utility knife or scissors. Be precise in your measurements and cutting to ensure a proper fit.
Peel off the backing: Carefully peel back a few inches of the backing paper from one end of the PVC wallpaper. Avoid touching the adhesive side to prevent fingerprints and dirt from sticking to it.
Apply the wallpaper: Begin applying the exposed adhesive side of the PVC wallpaper to the surface. Start at one corner or edge and align it with the surface. As you apply the film, gradually peel off more of the backing paper, smoothing the film onto the surface as you go. You can use a squeegee or a credit card to help remove any air bubbles and ensure a smooth, even application.
Smooth out bubbles: If you notice any air bubbles trapped under the film, use the squeegee or credit card to gently push them out towards the edges. Work from the center outward to expel the bubbles completely.
Trim excess: Once the wallpaper is applied smoothly, use a utility knife or scissors to trim any excess film along the edges. Be cautious when cutting to avoid damaging the surface underneath.
Finish and clean: After trimming, go over the entire surface with a clean cloth or sponge to ensure that the PVC wallpaper is securely adhered and free from any air bubbles or wrinkles. If you used soapy water during application, wipe away any excess water or soap residue.
Final inspection: Inspect the surface to ensure that the PVC film is securely in place and free from imperfections. If you encounter any issues, gently lift the film and reapply as needed.
Self-adhesive PVC wallpaper can be used for a wide range of purposes, so make sure to follow the specific instructions provided by the manufacturer if you have a unique application in mind. Proper surface preparation and careful installation are key to achieving a professional-looking result.

Customization:

Realsun Deco is a professional supplier of self adhesive PVC wallpapers. Our PVC wallpaper provides you with an easy-to-install, waterproof, moisture-proof, mildew-proof, anti-fouling and anti-flame solution for your living room, bedroom, kitchen and bathroom.
