

Versatile Rigid Wood Grain PVC Membrane Foil Sheet For Hot Pressing

Our Product Introduction

for more products please visit us on realsundeco.com

Basic Information

- Place of Origin: Foshan, China
- Brand Name: Realsun Deco
- Minimum Order Quantity: 3000m/model
- Price: Negotiable
- Packaging Details: Pack in roll
- Delivery Time: 15-20 days
- Payment Terms: T/T 30% down payment, 70% balance before shipment
- Supply Ability: 500000m/month

Product Specification

- Features: Waterproof, Anti Flame, Anti-scratch, Antibacterial etc.
- Length: 100m-400m/roll
- Usage: Lamination, Vacuum Membrane Press, Wrapping, Hot Pressetc.
- Printing: 1-5Color Printing
- Packaging: Rolls
- Material: PVC
- Thickness: 0.14mm-0.5mm
- Surface: Smooth, Embossed, Texture, Matte, Super Matte, Soft Touch, High Gloss
- Highlight: **Hot Pressing PVC Membrane Foil,**
Versatile PVC Membrane Foil,
Hot Pressing pvc membrane film

Product Description

Product Description:

Our Quality PVC Foil

Our PVC foil is primarily composed of Polyvinyl Chloride (PVC), a synthetic plastic material renowned for its versatility, durability, elasticity, and easy workability.

This material is available in a vast selection of colors, textures, and patterns, replicating the look and feel of real wood, stone, metal, or fabric at a much lower cost.

Our foil can be applied to a wide range of surfaces and substrates, including walls, furniture, cabinets, doors, and more. This product is highly resistant and capable of enduring extensive daily use in high-traffic locations.

It requires minimal maintenance thanks to its robustness and quickens cleaning with only the use of a wet cloth.

Moreover, the affordability of our foam foil grants security to its user that it won't cause damage to their budget. Furthermore, there is a large array of designs, patterns, and styles offered by manufacturers for modifications that abide to personal preferences or project details.

Finally, this PVC foil is a staple in both residential and commercial settings, typically used for things such as retail displays, bathroom or kitchen cabinets, wall panels, interior doors, and furniture surfaces.

Features:

PVC Membrane Foil for door

PVC Deco Sheet

PVC Plastic Film

Thickness: **0.14mm-0.5mm**

Printing: **1-5Color Printing**

Features: **Waterproof, Anti Flame, Anti-scratch, Antibacterial, etc.**

Material: **PVC**

MOQ: **2000-3000m/model**

Technical Parameters:

Our products come with a great variety of thickness, ranging from 0.1mm to 0.5mm. Moreover, their width can be 1260mm and 1400mm. Also, buyers can select lengths from 100m to 400m per roll.

The aluminum board can be designed with wood grain, solid color, marble, brick, and so on. Additionally, surface treatments can come in matt, super matt, embossed, high gloss, and soft touch. We provide OEM and ODM service if needed.

Applications:

There are different processes for different applications, such as membrane press (vacuum press), wrapping profiles, cold laminating, hot laminating and self-adhesive.

Membrane press (vacuum press) is used for cover on MDF, particleboard, wooden board, fiberboard, etc. for doors, kitchen cabinet, wardrobe, furniture, etc. Cover embossed board, and five surfaces can be covered at same time with it. Its thickness is 0.20-0.50mm, while width 1260mm or 1400mm, and length from 100-300m/roll.

Wrapping Profiles makes a cover for all kinds of profiles including wood profile, aluminum profile, PVC profile, etc., which can be used for door frame, window sill, base channel, PVC ceiling and so on. The thickness of it is 0.12-0.18mm, width from 40-1260mm, and length 300-800m/roll.

Cold Laminating makes covers on all kinds of flat panels such as wood panel, steel panel, aluminum panel, PVC panel, etc. for doors and furniture. It has a thickness of 0.12-0.20mm, a width of 1240-1260mm, and a length of 300-500m/roll.

Hot Laminating can be used for making covers for PVC panel, steel panel, aluminum panel for doors, skirting and so on. It has a thickness of 0.16-0.30mm, a width of 1260mm, and a length of 200-300m/roll.

Self-adhesive thickness is 0.10-0.20mm, width either 600mm or 1220mm, and a length from 5-50m/roll. It can be put on any smooth surface for furniture and indoor decorations.

Packing and Shipping:

PVC Membrane Foil should be packaged and shipped in appropriate containers, which must be strong enough to protect the product against any potential damage during transport. The containers should be properly sealed to ensure that no moisture or dust enters the package. Additionally, the packaging should also include cushioning material, such as bubble wrap, to reduce the impact of any external shocks. The packages should also be clearly labeled with the product's name and a description of the contents.
