Basic Information

- Place of Origin: Foshan, China
- Brand Name: Realsun Deco
- Minimum Order Quantity: 3000m/model
- Price: Negotiable
- Packaging Details: Pack in roll
- Delivery Time: 15-20 days
- Payment Terms: T/T 30% down payment, 70% balance before shipment
- Supply Ability: 500000m/month

Product Specification

- Features: Waterproof, Anti Flame, Anti-scratch, Antibacterial etc.
- Thickness: 0.14mm-0.5mm
- Printing: 1-5Color Printing
- Packaging: Rolls
- Usage: Lamination, Vacuum Membrane Press, Wrapping, Hot Pressetc.
- Width: 1260mm/1400mm
- Surface: Smooth, Embossed, Texture, Matte, Super Matte, Soft Touch, High Gloss
- MOQ: 2000-3000m/model
- Highlight: **Patterned PVC Membrane Foil , customization PVC Membrane Foil, customization pvc membrane film**

Product Description

Premium-Quality PVC Thermo Foil Thickness 0.14mm-0.5mm For Vacuum Membrane Pressing

Product Description:

Our PVC foil is primarily made from Polyvinyl Chloride (PVC), a synthetic plastic material known for its durability, flexibility, and ease of processing. It is available in a wide range of colors, patterns, and textures, imitation the look of natural materials like wood, stone, fabric, or metal while providing a cost-effective alternative to those materials. PVC foil can be applied to many surfaces, and has the durability to withstand heavy use, and it is simple to maintain, requiring just weekly cleaning with a damp cloth. In addition, it is cost-efficient, making upscale aesthetic options affordable. Manufacturers offer a multitude of styles and finishes to meet varying project specifications and design preferences. Decorative PVC foil is used in residential and commercial settings for a range of applications.

Features:

Product Name: PVC Membrane Foil

Material: PVC

Features: Waterproof, Anti Flame, Anti-scratch, Antibacterial etc.

Usage: Lamination, Vacuum Membrane Press, Wrapping, Hot Press etc.

MOQ: 2000-3000m/model

Width: 1260mm/1400mm

Application: PVC Membrane Foil for Door, PVC Decorative Sheet for Door

Technical Parameters:

This product comes in two widths, 1260mm and 1400mm. The thickness varies from 0.1mm to 0.5mm. It is available in length of 100m to 400m per roll. It has a variety of designs for clients to choose from such as wood grain, solid color, marble, and brick designs. The surface treatments are matt, super matt, embossed, high gloss, and soft touch. It also offers various services from OEM, ODM, to custom.

Applications:

Different Process for different application:

1.Membrane Press (vacuum press): This process is best used in covering on MDF, particleboard, wooden board, fiberboard etc. for doors, kitchen cabinet, wardrobe and furniture. It has a thickness of 0.20-0.50mm, width of 1260mm and 1400mm and length of 100-300m/roll. For membrane press a cover of 5 surfaces can be achieved at the same time.

2.Wrapping Profiles: A thickness of 0.12-0.18mm, width of 40-1260mm and length of 300-800m/roll is used in this process. It is necessary for covering on all kinds of profiles which may include wood profile, aluminium profile, PVC profile among others, for door frame, window sill, base channel and PVC ceiling.

3.Cold Laminating: With a thickness of 0.12-0.20mm, width of 1240-1260mm and length of 300-500m/roll, this is suitable for covering on all kinds of flat panels such as wood panel, steel panel, aluminum panel, and PVC panel etc. for doors and furniture.

4.Hot Laminating: This process has a thickness of 0.16-0.30mm, width of 1260mm and length of 200-300m/roll, and it is preferably used for covering the PVC panel, steel panel, and aluminum panel for doors, skirting etc.

5.Self-adhesive: The thicknesses of 0.10-0.20mm, width of 600mm/1220mm and length of 5-50m/roll make this process ideal for placing on any smooth surface, usually for furniture and interior decorations.

Customization:

Realsun Deco is a leading supplier of **PVC Membrane Foil**. Our products are manufactured in Foshan, China and are available in rolls with **0.14mm-0.5mm thickness**. Our PVC thermo foil and PVC plastic film offer **1-5 color printing, smooth, embossed, texture, matte, super matte, soft touch, and high gloss** surface. The minimum order quantity is **3000m/model** and the delivery time is **15-20 days**. We offer competitive prices and accept **T/T 30% down payment, 70% balance before shipment** as payment terms. Our supply ability is **500000m/month**.

Packing and Shipping:

PVC Membrane Foil is typically packaged and shipped in the following manner:

The product is wrapped in a plastic bag to protect it from dust and moisture.

PVC film is rolled up and sealed with an outer plastic sheet, kraft paper head, and foam protective sheet.

The roll is secured with packaging tape and marked with the relevant shipping information.

The package is then sent using a reliable shipping service such as FedEx or UPS.
