- Feature: Waterproof/ Moisture-Proof/ Mildew-Proof/
Anti-fouling/ Anti Flame
- Style: Self Adhesive
- Highlight: **Brick Pvc Wallpaper OEM,**
Brick Self Adhesive Wallpaper ODM

Product Description:

Self Adhesive PVC Wallpaper

The self adhesive pvc wallpaper is primarily composed of polyvinyl chloride, a synthetic plastic material known for its durability and versatility. We add a layer of pressure sensitive adhesive on the back of the pvc film, and the liner paper. The liner paper is removed before application. The adhesive is designed to bond securely to a variety of surfaces, including glass, metal, plastic, wood, and so on. Our self adhesive pvc wallpaper can be made different thickness. The thickness you choose depends on your specific application and durability requirements. Additionally, the self adhesive pvc wallpaper is available in a variety of finishes, such as glossy, matte, satin and textured finishes. The choice of finish can affect the appearance and feel of the material.

Our self adhesive wallpaper is available in a wide range of colors and patterns, such as wood grain design, marble design, brick design and so on. It is also a popular choice for various craft and DIY applications due to its ease of use. Our self adhesive pvc wallpaper has a broad range of applications, such as covering walls, furniture, and other items.

Features:

Product Name: Self Adhesive PVC Wallpaper

Surface Treatment: Glossy/ Matte/ Textured/ Embossed

Feature: Waterproof/ Moisture-Proof/ Mildew-Proof/ Anti-fouling/ Anti Flame

Material: PVC

Application: Wall Decoration/Kitchen Counter Top/Furniture Decoration/Ceiling Decoration

Installation: Easy To Install

Adhesive: Self-adhesive Wall Sticker

Removable: Removable PVC Wallpaper

Technical Parameters:

Our products come in an extensive range of thickness, from 0.1mm to 0.12mm. We offer two standard widths – 1220mm and 600mm, both having a length of 50 metres or 10 metres per roll. Durable and stylish, our products feature designs such as wood grain, solid color, marble, brick and so on. We also provide surface treatment to give your product matt, super matt, embossed, high gloss or soft touch finish. Our professional team is also available for OEM and ODM services.

Applications:

Self-adhesive PVC wallpaper is a highly versatile material that can be used for various applications such as home improvement, crafts, signage, and more. Here's a general guide on how to apply self-adhesive PVC wallpaper:

Materials you'll need:

Self-adhesive PVC wallpaper

A clean, smooth wall surface to apply the film

A measuring tape or ruler

A sharp utility knife or scissors

A squeegee or a credit card

A clean cloth or sponge

A spray bottle with soapy water (optional)

Steps for application:

Prepare the surface: Ensure that the surface you plan to cover with self-adhesive PVC wallpaper is clean, dry, and smooth. Remove any dust, dirt, or imperfections. If the surface is dirty, clean it thoroughly and let it dry completely.

Measure and cut: Measure the dimensions of the surface you want to cover and add a few extra inches to each side to allow for trimming. Cut the self-adhesive PVC film to the desired size using a sharp utility knife or scissors. Be precise in your measurements and cutting to ensure a proper fit.

Peel off the backing: Carefully peel back a few inches of the backing paper from one end of the PVC film. Avoid touching the adhesive side to prevent fingerprints and dirt from sticking to it.

Apply the film: Begin applying the exposed adhesive side of the PVC film to the surface. Start at one corner or edge and align it with the surface. As you apply the film, gradually peel off more of the backing paper, smoothing the film onto the surface as you go. You can use a squeegee or a credit card to help remove any air bubbles and ensure a smooth, even application.

Smooth out bubbles: If you notice any air bubbles trapped under the film, use the squeegee or credit card to gently push them out towards the edges. Work from the center outward to expel the bubbles completely.

Trim excess: Once the film is applied smoothly, use a utility knife or scissors to trim any excess film along the edges. Be cautious when cutting to avoid damaging the surface underneath.

Finish and clean: After trimming, go over the entire surface with a clean cloth or sponge to ensure that the PVC film is securely adhered and free from any air bubbles or wrinkles. If you used soapy water during application, wipe away any excess water or soap residue.

Final inspection: Inspect the surface to ensure that the PVC film is securely in place and free from imperfections. If you encounter any issues, gently lift the film and reapply as needed.

Self-adhesive PVC film can be used for a wide range of purposes, so make sure to follow the specific instructions provided by the manufacturer if you have a unique application in mind. Proper surface preparation and careful installation are key to achieving a

professional-looking result.

Customization:

Realsun Deco offers Self Adhesive PVC Wallpaper with the following product attributes:

Brand Name: Realsun Deco

Place of Origin: Foshan, China

Minimum Order Quantity: 3600sqm/model

Price: Negotiable
