- Size: 122cm*50m, 60cm*10m
- Thickness: 0.1mm-0.15mm
- Highlight: **0.15mm Wood PVC Wallpaper**, **0.1mm self adhesive temporary wallpaper**

Pressure Sensitive Adhesive Temporary Wall Covering Easy To Install in Wood Grain Design

Product Description:

The self adhesive pvc wallpaper is primarily composed of polyvinyl choloride, a synthetic plastic material known for its durability and versatility. To enhance its practicality, we add a layer of pressure sensitive adhesive onto the back of the pvc film, and the liner paper. When it is time for application, the liner paper is removed and the adhesive is securely along to any surface you wish, such as glass, metal, plastic, and wood.

The wallpapers can be made with different thickness accordingly to customer's specific application and durability requirements. Moreover, the wallpaper can present different performances with the variety of finishes, such as glossy, matte, satin, and textured finishes. Furthermore, our self adhesive wallpaper offers multiple colors and patterns, from wood grain design to marble design and brick design, that customers can pick to match the surrounding decoration.

Our self adhesive pvc wallpaper can be applied to many different surfaces, such as for covering walls, furniture, and etc. Moreover, due to its ease of use, it is a popular choice for various craft and DIY projects.

Features:

Product Name: Self Adhesive PVC Wallpaper

Usage: Living Room/ Bedroom/ Kitchen/ Bathroom

Design: Marble/Wood Grain/Brick/Stone/Plain Color, Etc.

OEM/ODM: Accepted

Thickness: 0.1mm-0.15mm

Feature: Waterproof/ Moisture-Proof/ Mildew-Proof/ Anti-fouling/ Anti Flame

Additional Feature: removable wall sticker, temporary wall covering

Technical Parameters:

We can provide you with customized **sheet materials** with the thickness of **0.1mm- 0.12mm** and a **width of 1220mm and 600mm**. The available lengths are either **50m/roll** or **10m/roll** with a selection of wood grain, solid color, marble, brick and other designs.

These sheet materials have amazing **surface treatments** such as matt, super matt, embossed, high gloss, and soft touch.

We also provide both **OEM and ODM services** to our distinguished customers.

Applications:

Self-adhesive PVC wallpaper is a versatile material that can be applied for various applications, such as home improvement, crafts, and signage projects. To ensure success when installing the PVC wallpaper, you will need supplies like clean wall surface, measuring tape, a sharp utility knife, squeegee or credit card, a clean cloth or sponge, and soapy water in a spray bottle (optional). Here is a guide on how to apply self-adhesive PVC wallpaper.

First, prepare the surface for application. It should be clean, dry, and smooth. Make sure to remove any dust, dirt, or imperfections. If the surface is dirty, clean it thoroughly and let it dry completely.

Second, measure and cut the film appropriately. Measure the dimensions of the surface you want to cover, and add a few extra inches to each side to allow for trimming. Cut the self-adhesive PVC film to the desired size with a sharp utility knife or scissors.

Third, peel off the backing paper from one end of the PVC film and carefully apply it on the surface. Start from one corner or edge, and align it slowly with the surface. Make sure to gradually peel off more of the backing paper and keep smoothing the film as you go. You can use a squeegee or a credit card to help you get rid of any air bubbles.

Fourth, eliminate any air bubbles trapped under the film. Use the squeegee or credit card to gently push out the air bubbles out towards the edges. Work from the center outward to expel the bubbles completely.

Fifth, trim any excess film along the edges using a sharp utility knife or scissors. Be careful when trimming to avoid damaging the surface underneath.

Finally, go over the entire surface with a clean cloth or sponge to ensure that the PVC film is securely adhered and free from any air bubbles or wrinkles. If you used soapy water during application, make sure to wipe away any excess water or soap residue. Once you inspect and verify that the film is securely in place and free from imperfections, your project is complete.

Customization:

Self Adhesive PVC Wallpaper
Brand Name: Realsun Deco
Place of Origin: Foshan, China
Minimum Order Quantity: 3600sqm/model
Price: Negotiable
