waterproof decorative pvc foil

Product Description

Product Description:

Our PVC Foil is primary made from Polyvinyl Chloride (PVC), a synthetic plastic material renowned for its strength, flexibility, and ease of processing. It is available in many colors, patterns, and textures, which can mimic the look of natural materials and provide a more cost-effective alternative. This foil can be applied to virtually any surface, including doors, cabinets, walls, and furniture, while still being able to withstand high levels of daily usage. With minimum maintenance, usually just by wiping down with a dry cloth once a week, and being low-cost in comparison to other materials, it is ideal for using in home decor, retail displays, and more. This foil has a wide range of styles and finishes that allow for further customization to meet preferences and project specifications.

Features:

Product Name: **Wood Grain PVC Film**
 Color: **More Than Hundreds Wood Grain Design For Choose**
 Material: **PVC**
 MOQ: **3000m/model**
 Width: **1260mm, 1400mm**
