- OEM/ODM: Accepted
- Style: Self Adhesive
- Material: PVC
- Highlight: **Customizable Self Adhesive Wall Covering ,  
Hassle Free Self Adhesive Wall Covering**

## Product Description

Flame-Resistant Self Adhesive Temporary PVC Wallpaper Accepted OEM/ODM

### Product Description:

**Material:** Our self adhesive pvc film is made with polyvinyl chloride, a type of synthetic plastic which is known for its durability and versatility.

**Adhesive Backing:** This pvc film has a layer of pressure-sensitive adhesive backing, along with a removable liner. This sticky coating is designed to cling to a plethora of surfaces, such as curvature glass, metal, plastic, wood, etc.

**Thickness:** Depending on the desired application and required durability, this product manipulates its thickness.

**Finish:** Our self-adhesive pvc film is available in various finishes, such as glossy, matte, satin, and textured.

**Colors and Patterns:** We provide a wide range of colors and patterns, like wood grain, marble, brick, and so on.

**Application:** With its forgiving flexibility, it is greatly use for wall covering, making furniture, and so on. Additionally, it is a popular choice for craft and DIY projects.

### Features:

**Product Name:** Self Adhesive PVC Wallpaper

**Thickness:** 0.1mm-0.15mm

**Material:** PVC

**Adhesive:** Pressure Sensitive Adhesive

**Color:** Various Colors

**Usage:** Living Room/ Bedroom/ Kitchen/ Bathroom

**Features:** Temporary Wallpaper, Removable Wall Sticker

### Technical Parameters:

Our products are offered in a variety of thickness which ranges from 0.1mm to 0.12mm. These products are available in two widths: 1220mm and 600mm. We also offer you either a 50m or 10m roll of these products.

We have a wide selection of designs to choose from which include; wood grain, solid color, marble, brick and many more. You can also customize your product by choosing from different types of surface treatments such as matt, super matt, embossed, high gloss and soft touch.

In addition, we provide OEM and ODM services. We are passionate in providing our customers with a great product that meets their needs.

### Applications:

Self-adhesive PVC film is a versatile material that can be used for various applications, including home improvement, crafts, signage, and more. Here is a general guide on how to apply it:

**Materials you'll need:**

Self-adhesive PVC film

A clean, smooth surface to apply the film to (e.g., furniture, walls, windows, or any other suitable surface)

A measuring tape or ruler

A sharp utility knife or scissors

A squeegee or a credit card

A clean cloth or sponge

A spray bottle with soapy water (optional)

**Steps for application:**

**Prepare the surface:** Ensure that the surface you plan to cover with self-adhesive PVC film is clean, dry, and smooth. Remove any dust, dirt, or imperfections. If the surface is dirty, clean it thoroughly and let it dry completely.

**Measure and cut:** Measure the dimensions of the surface you want to cover and add a few extra inches to each side to allow for trimming. Cut the self-adhesive PVC film to the desired size using a sharp utility knife or scissors. Be precise in your measurements and cutting to ensure a proper fit.

**Peel off the backing:** Carefully peel back a few inches of the backing paper from one end of the PVC film. Avoid touching the adhesive side to prevent fingerprints and dirt from sticking to it.

**Apply the film:** Begin applying the exposed adhesive side of the PVC film to the surface. Start at one corner or edge and align it with the surface. As you apply the film, gradually peel off more of the backing paper, smoothing the film onto the surface as you go. You can use a squeegee or a credit card to help remove any air bubbles and ensure a smooth, even application.

**Smooth out bubbles:** If you notice any air bubbles trapped under the film, use the squeegee or credit card to gently push them out towards the edges. Work from the center outward to expel the bubbles completely.

**Trim excess:** Once the film is applied smoothly, use a utility knife or scissors to trim any excess film along the edges. Be

cautious when cutting to avoid damaging the surface underneath.

Finish and clean: After trimming, go over the entire surface with a clean cloth or sponge to ensure that the PVC film is securely adhered and free from any air bubbles or wrinkles. If you used soapy water during application, wipe away any excess water or soap residue.

Final inspection: Inspect the surface to ensure that the PVC film is securely in place and free from imperfections. If you encounter any issues, gently lift the film and reapply as needed.

Self-adhesive PVC film can be used for a wide range of purposes, so make sure to follow the specific instructions provided by the manufacturer if you have a unique application in mind. Proper surface preparation and careful installation are key to achieving a professional-looking result.

### Customization:

Self Adhesive PVC Wallpaper

Brand Name: Realsun Deco

Place of Origin: Foshan, China

Minimum Order Quantity: 3600sqm/model

Price: Negotiable

Packaging Details: Pack in roll
