Product Description

400 Micron Wood Grain Pvc Sheet For Vacuum Press Furniture Decoration

Product Description:

Our **pvc foil** is primarily made from *Polyvinyl Chloride (PVC)*, a synthetic plastic material known for its durability, flexibility and ease of processing. It is available in a wide range of colors, patterns and textures, making it possible to mimic the look of natural materials, such as wood, stone, fabric or metal, while retaining a high-quality aesthetic without incurring the related expenses.

This decoration material high-durability enables it to be applied to a variety of surfaces, including doors, cabinets, furniture, walls and more. Thus, enabling them to be applied in different areas in the interior. Once placed it requires little upkeep and usually just has to be wiped down once a week with a moist cloth.

In addition, there is a wide range of styles and finishes available from manufacturers. This enables modification to meet project specifications and personal design preferences. Therefore, pvc decorative foil is widely used in both residential and commercial settings for kitchen and bathroom cabinets, interior doors, wall paneling, furniture surfaces, retail displays and more.
