Product Description

Product Description:

Material

Our PVC foil is primarily made from Polyvinyl Chloride (PVC), a synthetic plastic material known for its durability, flexibility, and ease of processing.

Appearance

Our PVC foil is available in a wide range of colors, patterns, and textures. It can mimic the look of natural materials such as wood, stone, fabric, or metal, providing a cost-effective alternative to these materials while retaining a high-quality aesthetic.

Versatility

Our foil can be applied to a variety of surfaces, including doors, cabinets, furniture, walls, and more. It adheres well to different substrates and can be used in different areas in interior design.

Durability

Realsun Deco PVC foil is renowned for its resilience to deterioration and strength. Because of its durability, it is frequently used in high-traffic locations.

Maintenance

Our PVC foil requires little upkeep once it is placed. It is simple to maintain and usually just needs to be wiped down once a week with a damp cloth.

Cost-effectiveness

The affordability of PVC decorative foil in comparison to natural materials is one of its main benefits. It makes it possible to create upscale aesthetics without incurring the related expenses.

Modification

A large range of styles and finishes are available from manufacturers, enabling modification to meet project specifications and personal design preferences.

Application

Decorative PVC foil is commonly used in residential and commercial settings for applications such as kitchen and bathroom cabinets, interior doors, wall paneling, furniture surfaces, retail displays, and more.

Technical Parameters:

PVC Film Detail Specification

The PVC film has a thickness range of 0.1mm-0.5mm and comes in various widths including 1260mm, and 1400mm. The length of each roll can range from 100m to 500m, depending on the chosen thickness. The designs available for the PVC film include wood grain, solid color, wallpaper design, brick design, marble design, flower design, and laser design. The surface of the film can be treated with a matt finish, or come with embossed textures for a more textured look, or a high gloss finish for a shiny appearance. Our services include OEM options, as well as customized designs and sizes to fit your specific needs.

Applications:

Membrane Press

The membrane press is used to cover various materials such as MDF, particle board, wooden board, and fiberboard to create durable and stylish surfaces for doors, kitchen cabinets, wardrobes, furniture, and more.

Wrapping Profiles

Our wrapping profiles are designed to cover a wide range of profiles including wood, aluminum, and PVC profiles. They can be used to enhance the appearance of door frames, window sills, base channels, PVC ceilings, and other structures.

Cold Lamination

With cold lamination, you can easily cover flat panels like wood, steel, aluminum, and PVC panels. This method is commonly used for doors and furniture to give them a sleek and professional finish.

Hot Lamination

Our hot lamination services are ideal for covering PVC, steel, and aluminum panels. This method is ideal for doors, skirtings, and other decorative elements.

Self Adhesive

We also offer self-adhesive PVC film that can be easily applied to furniture and other decorations. Made with high-quality PVC decorative film and coated with an environmental acrylic pressure sensitive adhesive, our self-adhesive film is a simple, convenient, and efficient solution for your decorating needs.

Don't settle for generic PVC film for your project. Choose Realsun Deco for high-quality and customizable Marble PVC Film. Contact us today to get started!

Packing and Shipping:

Marble PVC Film Packaging and Shipping

Our Marble PVC Film is carefully packaged to ensure safe transportation and delivery to our customers. The packaging process includes:

Rolls of film are first wrapped in protective foam to prevent any damage during transportation.

The film rolls are then wrapped with kraft paper and plastic sheet.

Each roll is labeled with the product name, size, and quantity for easy identification.

For shipping, we offer various options to meet our customers' needs:

Standard shipping via truck, air, or sea freight.

Express shipping for urgent orders.

Customized shipping options to accommodate specific requests.

We take great care in ensuring that our Marble PVC Film arrives at its destination in pristine condition. However, in the rare event of any damage during shipping, we have a dedicated customer service team ready to assist and resolve any issues.
