Product Description

Product Description:

Material:

The main ingredient of our PVC foil is Polyvinyl Chloride (PVC), a synthetic plastic known for its strength, flexibility, and ease of processing.

Appearance:

We offer a wide range of colors, patterns, and textures for our PVC foil. It has the ability to replicate the appearance of real materials like wood, stone, cloth, or metal, while being more cost-effective and maintaining a high-end look.

Adaptability:

Our PVC foil is suitable for a variety of surfaces, including walls, doors, cabinets, and furniture. It can be applied effectively on many different surfaces, making it versatile for use in various interior spaces.

Durability:

Realsun Deco PVC foil is highly durable and resistant to deterioration. Its longevity makes it a popular choice for high-traffic areas.

Maintenance:

Once installed, our PVC foil requires minimal maintenance. It only needs to be wiped down with a wet cloth once a week, making upkeep easy and convenient.

Economical:

One of the greatest advantages of PVC decorative foil is its lower cost compared to natural materials. This allows for the creation of sophisticated aesthetics without the high associated costs.

Modification:

With a wide variety of styles and finishes available, PVC foil can be easily modified to meet project requirements and individual design preferences.

Application:

Decorative PVC foil is commonly used for wall paneling, furniture surfaces, retail displays, interior doors, kitchen and bathroom cabinets, and other purposes in both residential and commercial settings.

Applications:

Membrane Press: Covering for Various Boards and Furniture

The Membrane Press is a versatile tool used to cover a variety of boards, such as MDF, particle board, wooden boards, and fiberboards. It is commonly used in the production of doors, kitchen cabinets, wardrobes, and furniture.

Wrapping Profiles for Different Profiles and Applications

The Wrapping Profiles are designed to cover all types of profiles, including wood, aluminum, and PVC. These profiles can be used for a range of purposes such as door frames, window sills, base channels, and PVC ceilings.

Cold Lamination for Flat Panels and Furniture

The Cold Lamination method is suitable for covering all types of flat panels, such as wood, steel, aluminum, and PVC. It is primarily used for doors and furniture.

Hot Lamination for Doors, Skirting, and More

The Hot Lamination technique is specifically used to cover PVC, steel, and aluminum panels for doors, skirting, and other applications.

Self Adhesive PVC Film for Easy Application

Our PVC film can also be made into a self-adhesive version. This convenient option uses PVC decorative film as the base material and is attached to release paper (liner) using an environmentally friendly acrylic pressure-sensitive adhesive. It can easily and firmly adhere to the surface of furniture and other decorations, making it a simple, convenient, and efficient solution.

Our PVC Membrane Foil is the perfect customized solution for your furniture needs. Made with high-quality PVC plastic film, our foil is designed to create a seamless and long-lasting finish for your furniture. Our membrane foil is ideal for doors and other furniture pieces, providing a beautiful and durable surface that will enhance any room.

We offer a wide range of customizable services to meet your specific needs. With a minimum order quantity of 3000m per model, our pricing is negotiable to fit your budget. Each roll is packed for easy handling and delivery, and we offer a supply ability of 500000m per month to ensure your project stays on schedule.

Our PVC Membrane Foil is not only visually appealing, but it also offers a variety of practical features. It is waterproof, making it suitable for both indoor and outdoor use. It is also anti-flame, anti-scratch, and antibacterial, providing a safe and hygienic option for your furniture. Our foil can be used for a variety of purposes, including lamination, vacuum membrane press, wrapping, and hot press. With 1-5 color printing options, you can customize the design to your liking. Each roll is available in lengths of 100m-400m, providing enough coverage for larger furniture pieces.

Choose Realsun Deco for all your PVC Membrane Foil needs. Our high-quality products and customizable services make us the perfect choice for your furniture project. Contact us today to learn more and place your order.

Packing and Shipping:

Packaging and Shipping for PVC Membrane Foil

Our PVC membrane foil is carefully packaged to ensure its safe arrival at your doorstep. Each roll is wrapped in a layer of foam sheet and wrapped with kraft paper and plastic sheet to prevent any damage during transit.

We offer various shipping options to meet your needs. Standard shipping typically takes 3-5 business days for delivery, while expedited shipping can arrive in 1-2 business days. For international orders, please contact us for shipping rates and delivery times.

For larger orders, we also offer palletized shipping to minimize the risk of damage during transportation. Our team takes great care in loading and securing the pallets to ensure your order arrives in perfect condition.

Once your order has been shipped, we will provide you with a tracking number so you can easily monitor its progress. If you have any special shipping requests, please let us know and we will do our best to accommodate them.

Thank you for choosing our PVC membrane foil. We are committed to providing you with the highest quality product and ensuring its safe delivery to your desired location.
