- Material: PVC
- Highlight: **Marble Pvc Wood Grain Foil,**
Soft Touch Pvc Wood Grain Foil

Product Description

Wood Grain Marble Pvc Wood Grain Foil Soft Touch Lamination Wrap Vacuum Press 1400mm

Product Description:

Realsun Deco PVC Foil - Product Features

Material Composition

Realsun Deco's PVC foil is crafted from high-quality Polyvinyl Chloride (PVC), a synthetic plastic polymer renowned for its exceptional strength, pliability, and ease of processing. This choice of material ensures a seamless blend of durability and adaptability in all our products.

Visual Appeal

Our extensive selection of PVC foils encompasses a myriad of hues, motifs, and finishes. Created to convincingly mimic the essence of natural elements such as wood, stone, fabric, or metal, our foils provide an economical yet upscale alternative designed to cater to various stylistic preferences.

Adaptability & Versatility

The versatility of our PVC foil makes it perfectly suited for many surfaces including walls, doors, cabinets, and a breadth of furniture pieces. Its adaptable nature allows it to excel in a multitude of interior settings, satisfying a diverse array of application needs.

Enduring Durability

Known for its robust build, the Realsun Deco PVC foil stands out for its resistance to wear and decay. It's especially favored in areas subject to high footfall, where enduring performance is key.

Low-Maintenance Solution

The practicality of our PVC foil extends to its maintenance requirements. Post-installation, it needs little upkeep; a simple wipe with a damp cloth weekly suffices to keep it in pristine condition.

Cost-Effectiveness

Offering financial efficiency, our PVC decorative foils present an affordable substitute to genuine materials. This attribute allows for the realization of refined and sophisticated environments without shouldering the extensive costs usually associated with natural finishes.

Customization Capabilities

An array of customizable styles and finishes are available to meet the unique demands of various projects, allowing for tailored solutions that align with specified design visions and individual preferences.

Wide-Ranging Application

The Realsun Deco PVC foil enjoys popularity across diverse applications. Its utilization spans from wall paneling and furniture surfaces to retail displays, and from interior doors to kitchen and bathroom cabinets. This decorative solution demonstrates its marked presence in both residential and commercial spaces.

Features:

Product Name: PVC Decorative Film

Material: PVC

Length: 100m-400m

Design: Wood Grain, Marble, Brick, Stone And So On

Surface: Glossy/ Matt/ Embossed/ Super Matt/ Soft Touch

Service: OEM, ODM

Applications: PVC membrane for furniture, soft touch pvc foil, pvc marble film

Applications:

Laminating Options for Various Applications

1. Membrane Press

Also known as vacuum press, this method is suitable for applications on surfaces that include MDF, particleboard, wooden board, and fiberboard. It is commonly used for creating elements of doors, kitchen cabinets, wardrobes, and other furniture pieces. The membrane press can effectively cover embossed boards and can simultaneously laminate all five surfaces.

Thickness: 0.20-0.50mm

Width: 1260mm, 1400mm

Length: 100-300m/roll

2. Wrapping Profiles

This lamination process is designed for all sorts of profiles, which may include wood, aluminum, and PVC. The profiles can be part of a door frame, window sill, base channel or used in PVC ceiling designs.

Thickness: 0.12-0.18mm

Width: 40-1260mm

Length: 300-800m/roll

3. Cold Laminating

Cold laminating is an excellent option for covering flat panels such as wooden, steel, aluminum, and PVC panels. These laminates are typically used to enhance the aesthetic and functional quality of doors and furniture.

Thickness: 0.12-0.20mm

Width: 1240-1260mm

Length: 300-500m/roll

4. Hot Laminating

Hot laminating is applied to materials like PVC, steel, and aluminum panels. This method is often used for doors, skirting, and similar applications.

Thickness: 0.16-0.30mm

Width: 1260mm

Length: 200-300m/roll

5. Self-adhesive

The self-adhesive laminating option is versatile and can be applied onto any smooth surface. This is particularly useful for furniture and interior decorations for the ease of application and the variety of surfaces it can adhere to.

Thickness: 0.10-0.20mm

Width: 600mm/1220mm

Length: 5-50m/roll
