Product Description

Product Description:

Our PVC foil is made with Polyvinyl Chloride (PVC), a synthetic plastic known for its strength, flexibility and ease of processing. PVC is the primary material in our products.

We offer a wide variety of colors, patterns and textures in our PVC foil line. Our products can imitate the look and feel of real materials like wood, stone, cloth or metal while remaining cost-effective. Additionally, our foils maintain a stylish look that can elevate the appearance of any space.

Our durable, high-quality PVC foil is suitable for use on many surfaces, including walls, doors, furniture, and cabinets. It can be applied in various interior spaces and can be highly effective on a range of surfaces.

Realsun Deco PVC foil is well-known for its strength and resistance to degradation. Its longevity makes it a popular choice for high-traffic areas, and it requires minimal maintenance after installation. Simply clean the foil with a wet cloth once per week.

The cost of PVC foil is much lower than natural materials, which makes it an economical choice for creating stylish looks without breaking the budget. Manufacturers offer a variety of styles, finishes, and textures, which can be customized to satisfy design preferences and project requirements.

Decorative PVC foil is ideal for paneling walls, furniture surfaces, retail displays, interior doors, kitchen and bathroom cabinets, and other commercial and home design applications.

Features:

Product Name: PVC Furniture Film

Thickness: 0.1mm-0.5mm

Application: Furniture, Door, Cabinet, Wall, Profile, Ceiling Etc.

Length: 100-400m/roll

MOQ: 3000m/color

Feature: Waterproof, Anti Flame, Anti Scratch, Antibacterial , Etc.

Our PVC Furniture Film is a versatile pvc laminate film for furniture that can be used to decorate and protect various surfaces, such as furniture, doors, cabinets, walls, profiles, ceilings and more. With a thickness range of 0.1mm-0.5mm, it offers excellent durability and protection against scratches, flames, water, and bacteria. Our furniture decorative foil comes in rolls of 100-400m and requires a minimum order of 3000m/color. Use our themofoil film for furniture to enhance the visual appeal and longevity of your furniture and interior design projects.

Technical Parameters:

Thickness: Our vinyl films come in thicknesses ranging from 0.1mm-0.5mm, giving you options to suit your unique application needs. We understand that thickness is an essential factor when it comes to choosing the perfect vinyl film for your project.

Width: We offer vinyl films in two different widths - 1260mm and 1400mm. Whether you need a smaller or wider roll, we have you covered.

Length: Our vinyl films come in rolls, and we offer a variety of lengths ranging from 100m-400m. This flexible option allows you to customize your purchase according to your needs.

Design: With an extensive collection of designs to choose from, our vinyl films are available in wood grain, solid color, marble, brick, and more. This wide range of designs makes it easy to select the perfect vinyl film for your project.

Surface treatment: We offer several surface treatment options to enhance your vinyl film, including matt, super matt, embossed, high gloss, and soft-touch. Choosing the right finish can transform the look and feel of your vinyl film, and we will help you find the best option to fulfill your desired aesthetics.

Service: We take pride in supporting our clients by providing customized services that cater to their specific needs. We offer OEM (Original Equipment Manufacturer) and ODM (Original Design Manufacturer) services, allowing you to customize your vinyl film according to your preferences.
