Product Description

Product Description:

Our PVC foil is mainly composed of Polyvinyl Chloride (PVC), which is a synthetic plastic known for its superb strength, flexibility, and ease of processing.

At Realsun Deco, we offer a wide range of colors, patterns, and textures for our PVC foil. It can imitate the appearance of real materials like wood, metal, stone, or cloth while still being affordable and maintaining a premium appearance.

The versatility of our PVC foil makes it perfect for a variety of surfaces, including walls, doors, cabinets, and furniture, making it suitable for use in a variety of interior spaces.

Realsun Deco PVC foil is a popular choice for high-traffic areas due to its renowned strength and resistance to deterioration. It is also easy to maintain, requiring only a simple wipe down with a wet cloth once a week.

Our decorative PVC foil offers a more economical alternative to natural materials without sacrificing style. It allows for the creation of sophisticated aesthetics without the associated costs.

Manufacturers provide a wide variety of styles and finishes which make it possible to modify to satisfy project requirements and individual design preferences.

Decorative PVC foil is frequently used in wall paneling, retail displays, furniture surfaces, interior doors, kitchen and bathroom cabinets, and other uses in both home and commercial settings.
