- Highlight: **Wood Grain Decorative Pvc Foil ,
Anti Scratch Pvc Foil, Furniture Roll Pvc Foil**

Product Description

Product Description:

Benefits of Realsun Deco PVC Foil

Material

Our PVC foil is composed mainly of Polyvinyl Chloride (PVC), which is a synthetic plastic renowned for its strength, flexibility, and ease of processing.

Appearance

Our range of PVC foil comes in an assortment of colors, textures, and patterns. As a more affordable alternative to natural materials like wood, stone, metal and cloth, our PVC imitates their appearances, while also maintaining a premium appearance.

Adaptability

Our decorative PVC foil can be applied to a wide range of surfaces including walls, doors, cabinets, and furniture. It is versatile and can be used in various interior spaces.

Durability

Our PVC foil has a reputation for being highly durable and resistant to wear and tear, making it an ideal choice for high-traffic areas.

Maintenance

Once installed, our PVC foil needs minimal maintenance, only requiring a weekly cleaning with a damp cloth, making it easy to maintain.

Economical

Our PVC decorative foil is an economical alternative to natural materials, making it possible to create sophisticated aesthetics without the associated costs.

Modification

Manufacturers provide a wide range of styles and finishes that can be easily modified to satisfy project requirements and individual design preferences.

Application

Realsun Deco PVC foil is versatile and is frequently utilized for wall paneling, furniture surfaces, retail displays, interior doors, kitchen and bathroom cabinets, and other uses in both home and commercial settings.

Features:

Product Name: PVC Furniture Film

Thickness: 0.1mm-0.5mm

Payment Term: T/T, L/C, Etc.

Application: Furniture, Door, Cabinet, Wall, Profile, Ceiling Etc.

MOQ: 3000m/color

This PVC Furniture Film product is a high-quality pvc film for furniture, also known as pvc foil for furniture and thermofoil film for furniture. It is the perfect solution for furniture, door, cabinet, wall, profile, ceiling and more.

Technical Parameters:

Product Information

Our products come in a range of thicknesses, from 0.1mm to 0.5mm. This allows for a variety of uses and applications, as well as customization depending on your specific needs.

The width of our products is available in two options: 1260mm and 1400mm. This provides flexibility for a variety of spaces and applications, whether it be for commercial or personal use.

Our product rolls come in lengths of 100-400m, making it easy and convenient for you to use and store. We understand the importance of efficiency and ease-of-use when it comes to our products.

Design Options

We offer a variety of design options to suit your personal tastes and needs. Our designs include wood grain, solid color, marble, brick, and others. You can choose the design that best fits your vision, whether it be for a residential or commercial space.

Surface Treatment

Our products undergo different surface treatments depending on your preferences. We offer matt, super matt, embossed, high gloss, and soft touch finishes. You can choose the finish that suits your needs and create the desired effect and atmosphere for your space.

Services

Aside from our product offerings, we also provide OEM and ODM services if you require customization beyond our existing product offerings. Our team is dedicated to providing the best possible service to our clients, and we are flexible to meet your specific needs and requirements.

Applications:

There are different processes available for different applications:

1. Membrane Press (vacuum press)

Thickness: 0.20-0.50mm

Width: 1260mm, 1400mm

Length: 100-300m/roll

This process involves covering MDF, particleboard, wooden board, fiberboard, etc. for doors, kitchen cabinet, wardrobe, furniture, and more. It can also cover embossed board and cover five surfaces at the same time.

2. Wrapping Profiles

Thickness: 0.12-0.18mm

Width: 40-1260mm

Length: 300-800m/roll

Wrapping Profiles can cover all kinds of profiles including wood profile, aluminum profile, PVC profile, etc. for door frame, window sill, base channel, PVC ceiling and so on.

3. Cold Laminating

Thickness: 0.12-0.20mm

Width: 1240-1260mm

Length: 300-500m/roll

The Cold Laminating process is used to cover all kinds of flat panels, such as wood panel, steel panel, aluminum panel, PVC panel, etc. for doors and furniture.

4. Hot Laminating

Thickness: 0.16-0.30mm

Width: 1260mm

Length: 200-300m/roll

This process involves covering PVC panel, steel panel, aluminum panel for doors, skirting and so on.

5. Self-adhesive

Thickness: 0.10-0.20mm

Width: 600mm/1220mm

Length: 5-50m/roll

The Self-adhesive process can be put on any smooth surface for furniture and indoor decorations.
