Product Description

Product Description:

Material:

Our pvc foil is primarily made of Polyvinyl Chloride (PVC), which is a synthetic plastic known for its excellent strength, flexibility, and ease of processing.

Appearance:

We offer a diverse range of colors, patterns, and textures for our pvc foil. It can mimic the look of wood, stone, cloth, or metal, and provides a premium appearance while being more affordable than actual materials.

Adaptability:

Our foil is versatile, and can be applied to a variety of surfaces such as walls, doors, cabinets, and furniture. It can be used in a broad range of interior spaces and is effective on many different surface types.

Durability:

Realsun Deco PVC foil is well known for its robustness and resistance to deterioration, making it a preferred option for high-traffic areas.

Maintenance:

After installation, our pvc foil doesn't require much maintenance. Just wipe it down once a week with a damp cloth and it will stay looking great.

Economical:

One of the main benefits of decorative pvc foil is that it is more cost-effective than natural materials. By using pvc foil you can attain sophisticated aesthetics without the associated costs.

Modification:

Manufacturers offer a wide variety of styles and finishes, making it possible to modify the material to suit different project requirements and individual design preferences.

Application:

Pvc decorative foil is frequently used for wall paneling, furniture surfaces, retail displays, interior doors, kitchen and bathroom cabinets, and other uses in both home and commercial settings.

Features:

Product Name: PVC Lamination Film

Surface: Glossy, Matte, Embossed, Super Matte, Soft Touch

Application: Furniture, Door, Wall, Kitchen Cabinet, Ceiling Etc.

Design: Wood Grain, Marble, Brick, Stone, Plain Color Etc.

Service: OEM, Customized Design And Size

Length: 100m-400m/roll

This lamination roll film is perfect for protecting and beautifying your surfaces. The PVC laminating sheet comes in a variety of surfaces including glossy, matte, embossed, super matte, and soft touch. It can be used for furniture, doors, walls, kitchen cabinets, ceilings, and more. Choose from a variety of designs including wood grain, marble, brick, stone, and plain colors. Our service includes OEM and customized design and size options. Each roll is long-lasting, with a length of 100m-400m. Get the best in lamination film with our PVC Lamination Film.

Technical Parameters:

The product comes in a variety of specifications to suit different needs. It has a thickness range of 0.1mm to 0.5mm, making it ideal for a wide range of applications. The product is available in two width options, namely 1260mm and 1400mm, ensuring that it can cater to varying customer requirements. Additionally, the length of the product per roll is between 100 to 400m, providing customers with sufficient material for their specific projects.

The product features a variety of designs to cater to a wide range of customer preferences. The available designs include wood grain, solid color, marble, brick, and many more. This diverse selection ensures that customers can choose a design that suits their unique taste and preferences.

The product has undergone various surface treatments to improve its overall aesthetic appeal and functionality. These treatments include matt, super matt, embossed, high gloss, and soft touch. These treatments enhance the overall look and feel of the product, making it an attractive and functional option for various applications.

Finally, the product offers OEM and ODM services to ensure that it can cater to specific customer requirements. This service allows customers to customize the product to meet their unique needs and preferences, ensuring that the final product is tailored to their specific requirements.

Applications:

Different Processes for Different Applications
