Basic Information

- Place of Origin: Foshan, China
- Brand Name: Realsun Deco
- Minimum Order Quantity: 3000m/model
- Price: Negotiable
- Packaging Details: Pack in roll
- Delivery Time: 15-20 days
- Payment Terms: T/T 30% down payment, 70% balance before shipment
- Supply Ability: 500000m/month

Product Specification

- Width: 1260mm, 1400mm
- Packing: Pack In Roll With Foam Sheet, Kraft Paper And Plastic Sheet
- Surface: Glossy/ Matte/ Embossed/ Texture/ Soft Touch
- Color: Marble, Brick, Wood Grain And So On
- MOQ: 3000m/model
- Product Name: Marble PVC Film
- Material: PVC
- Length: 100-400m/roll
- Highlight: **Embossed PVC Film for Wall Coverings, Embossed PVC Film, Embossed PVC Film for Flooring**

Product Description

Product Description:

Detail Description

Marble PVC film is a popular type of PVC decorative film that has a smooth and glossy surface finish. This attractive appearance is achieved through specialized manufacturing processes and surface treatments.

Composition:

Like other PVC decorative films, high gloss PVC film is primarily composed of polyvinyl chloride (PVC) plastic. It may also contain additives such as plasticizers, stabilizers, and pigments to enhance its properties.

Applications:

Marble PVC film is widely used for a variety of applications including:

Furniture veneers and surface overlays

Cabinet and appliance door coverings

Wall coverings and decorative panels

Automotive and marine interior trims

Features and Benefits:

This type of PVC decorative film offers several features and benefits, including:

Extremely smooth, reflective high-gloss finish

Durable and scratch-resistant surface

Available in a variety of solid colors and patterns

Easy to clean and maintain

Can be thermoformed or vacuum formed for curved surfaces

Considerations:

While high gloss PVC film has many advantages, there are a few considerations to keep in mind, such as:

Requires careful surface preparation for optimal adhesion

May be more susceptible to showing fingerprints and smudges compared to matte or satin finishes

Some high gloss PVC films may contain higher levels of volatile organic compounds (VOCs)

Overall, the high gloss surface of this PVC decorative film provides a sleek, modern, and reflective aesthetic, making it a popular choice for various interior design and surface finishing applications.

Applications:

The Thickness Ranges for High Gloss PVC Decorative Film

High gloss PVC decorative film comes in a variety of thickness ranges that are suitable for different applications. Typically, the thickness range for this type of film is:

0.1 mm to 0.2 mm

Films within this range are often used for applications where a lightweight and flexible material is required; for instance, for furniture veneers, cabinet door overlays, or automotive trim.

0.3 mm to 0.5 mm

This range is slightly thicker and provides more durability and rigidity than the thinner range. The films within this range are suitable for wall coverings, decorative panels, or surfaces that require higher scratch resistance.

The choice of thickness depends on the application and the desired balance between flexibility, strength, and ease of installation.

Thinner High Gloss PVC Films (0.1 - 0.2 mm)

Films within this thickness range are more pliable and can conform to curved surfaces more easily. As such, they may be preferred for applications where the film needs to be wrapped or thermoformed around edges and corners.

Thicker High Gloss PVC Films (0.3 - 0.5 mm)

Films within this thickness range offer greater protection and stability, making them a better choice for flat, smooth surfaces that don't require extensive bending or shaping, such as cabinet doors or large wall panels.

The choice of thickness is a critical consideration when selecting high gloss PVC decorative film to ensure that it meets the specific performance requirements of the intended application.

Customization:

Brand Name: Realsun Deco

Place of Origin: Foshan, China

Minimum Order Quantity: 3000m/model

Price: Negotiable

Packaging Details: Pack in roll

Delivery Time: 15-20 days

Payment Terms: T/T 30% down payment, 70% balance before shipment
