

Embossed Soft Touch Printable PVC Film For Furniture

Our Product Introduction

for more products please visit us on realsundeco.com

Basic Information

- Place of Origin: Foshan, China
- Brand Name: Realsun Deco
- Minimum Order Quantity: 3000m/model
- Price: Negotiable
- Packaging Details: Pack in roll
- Delivery Time: 15-20 days
- Payment Terms: T/T 30% down payment, 70% balance before shipment
- Supply Ability: 500000m/month

Product Specification

- Product Name: Marble PVC Film
- Width: 1260mm, 1400mm
- Thickness: 0.10mm-0.5mm
- Material: PVC
- Color: Marble, Brick, Wood Grain And So On
- Service: OEM, ODM
- Length: 100-400m/roll
- Application: Furniture/ Cabinet/ Wall/ Ceiling/ Door
- Highlight: **Embossed Soft Touch PVC Film,**
Furniture Soft Touch PVC Film,
Printable Soft Touch PVC Film

Product Description

Product Description:

Detail Description:

The Marble PVC film is a form of PVC decorative film that possesses a smooth and highly reflective, mirror-like surface finish. This high-gloss finish is achieved through specialized manufacturing processes and surface treatments.

Composition:

Marble PVC film, like other PVC decorative films, is predominantly composed of polyvinyl chloride (PVC) plastic. Additionally, it may contain additives such as plasticizers, stabilizers, and pigments to enhance its properties.

Applications:

Marble PVC film is usually used for furniture veneers and surface overlays, cabinet and appliance door coverings, wall coverings and decorative panels, automotive and marine interior trims.

Features and Benefits:

Extremely smooth, reflective high-gloss finish

Durable and scratch-resistant surface

Available in a variety of solid colors and patterns

Easy to clean and maintain

Can be thermoformed or vacuum formed for curved surfaces

Considerations:

Requires careful surface preparation for optimal adhesion

May be more susceptible to showing fingerprints and smudges compared to matte or satin finishes

Some high gloss PVC films may contain higher levels of volatile organic compounds (VOCs)

Overall, the high gloss surface of this PVC decorative film provides a sleek, modern, and reflective aesthetic, making it a popular choice for various interior design and surface finishing applications.

Applications:

The Ranges of High Gloss PVC Decorative Film Thickness

High gloss PVC decorative film has varying thickness ranges that cater to different applications such as furniture veneers, cabinet door overlays, automotive trim, wall coverings, decorative panels, and many others.

0.1 mm to 0.2 mm Thickness Range

This range is the thinnest among high gloss PVC decorative films available. It offers flexibility and lightness, making it ideal for applications where the material needs to conform to curves and edges. It can be used for furniture veneers, cabinet door overlays, automotive trim, or any other application where a lightweight and flexible material is required.

0.3 mm to 0.5 mm Thickness Range

This range is slightly thicker than the 0.1 - 0.2 mm range. It provides more durability and rigidity, making it a better choice for applications that require higher scratch resistance and stability. It can be used for wall coverings, decorative panels, and surfaces that do not need extensive bending or shaping.

The specific thickness selection within these ranges should be determined by the intended application and the desired balance between flexibility, strength, and ease of installation. The thickness considerations are important to ensure that the high gloss PVC decorative film meets the specific performance requirements of the intended application.

Overall, high gloss PVC decorative film is a versatile material that can enhance the appearance and functionality of numerous products and surfaces.

Support and Services:

Our Marble PVC Film is a high-quality product designed to meet the needs of various industries. We offer comprehensive technical support to assist with installation, maintenance, and troubleshooting. Our team of experts is available to answer any questions and provide guidance to ensure optimal performance and longevity of the product. Additionally, we provide a range of services, including customization and product development, to meet the specific needs of our customers. Contact us for more information.
