Product Description

Product Description:

Rigid PVC film with a glossy surface, the High Gloss PVC Film is a versatile product suitable for various applications. With a heat resistance of up to 120 , this PVC film is designed to withstand high temperatures, making it ideal for use in lamination, vacuum membrane press, and wrapping applications.

The High Gloss PVC Film is available in widths of 1260mm and 1400mm, providing flexibility for different project requirements. Its wide width options make it suitable for a range of projects, from furniture to wall paneling.

One of the key features of the High Gloss PVC Film is its non-toxic composition, ensuring safety during handling and use. Additionally, this PVC film is anti-flame, making it a reliable choice for applications where fire resistance is essential.

Furthermore, the High Gloss PVC Film is moisture-proof, protecting the underlying surface from water damage and ensuring long-lasting durability. Its anti-scratch properties also help maintain the glossy surface, keeping it looking new even after repeated use.

Common uses for the High Gloss PVC Film include furniture manufacturing, kitchen cabinet construction, ceiling installations, and wall paneling. Its glossy finish adds a touch of elegance to any project, enhancing the overall aesthetics of the final product.

Applications:

When it comes to enhancing the visual appeal and durability of various surfaces, the High Gloss PVC Film by Realsun Deco is the ideal solution. Originating from Foshan, China, this colorful PVC film is designed to meet a wide range of product application occasions and scenarios.

The glossy surface of this PVC film makes it perfect for use in interior design projects, such as furniture renovation, kitchen cabinet refacing, and wall paneling. Its vibrant color options including White, Red, Blue, Green, Yellow, Black, Cream, and more, allow for endless creative possibilities in home decor and commercial spaces.

With a thickness ranging from 0.15mm to 0.5mm, this high gloss PVC film offers excellent heat resistance up to 120 , making it suitable for environments with high temperatures. Its non-toxic composition ensures safety in various applications, while its anti-flame, moisture-proof, and anti-scratch features guarantee long-lasting quality.

Businesses looking to purchase this product can benefit from Realsun Deco's competitive pricing, with negotiable rates for a Minimum Order Quantity of 3000m/model. The packaging details include roll packaging for convenience in handling and storage.

With a supply ability of 500,000m/month, clients can rely on timely deliveries within 15-20 days after placing their orders. Payment terms of T/T 30% down payment and 70% balance before shipment offer flexibility and security in transactions.

In summary, the High Gloss PVC Film by Realsun Deco is an essential material for anyone seeking to add a touch of elegance and protection to surfaces. Its versatile applications, glossy finish, and durable properties make it a top choice for those in need of a reliable and visually appealing solution.
