Product Description

Product Description:

The High Gloss PVC Film is a versatile product suitable for various applications in the furniture and interior design industry. With a length range of 100m to 400m, this semi rigid PVC foil offers ample coverage for different projects, whether it's for residential or commercial use. Manufactured from high-quality PVC material, this colorful PVC film is designed to provide a high-gloss finish that enhances the aesthetic appeal of furniture, kitchen cabinets, ceiling panels, and wall finishes. The vibrant colors available in this range of color rigid PVC film can complement a wide range of interior design themes, adding a touch of sophistication and style to any space.

One of the key features of this product is its non-toxic composition, making it safe for use in indoor environments. Additionally, the PVC film is anti-flame, providing an added layer of safety in case of fire incidents. Its moisture-proof properties ensure durability and longevity, even in humid conditions, while the anti-scratch feature helps maintain the pristine appearance of the surfaces it covers.

With a thickness range of 0.15mm to 0.5mm, this high gloss PVC film offers flexibility in terms of application and customization. Whether you need a thin layer for a subtle finish or a thicker film for added protection, this product caters to a variety of preferences and requirements.

When it comes to usage, the High Gloss PVC Film is a versatile solution for different interior design projects. It can be applied to furniture surfaces to create a sleek and modern look, or used on kitchen cabinets to add a pop of color and style. The film is also suitable for ceiling panels, offering a reflective surface that can brighten up any room. For wall paneling, this PVC film provides a durable and easy-to-maintain surface that is both practical and visually appealing.

In conclusion, the High Gloss PVC Film is a premium product that combines style, functionality, and safety in one package. Whether you are a designer, architect, or homeowner looking to enhance your living or working space, this colorful PVC film is a versatile solution that ticks all the boxes. Its high-gloss finish, non-toxic composition, and range of vibrant colors make it a standout choice for those seeking a reliable and visually appealing material for their interior design projects.

Applications:

When it comes to high gloss PVC film, the Realsun Deco brand stands out as a top choice for various applications. Originating from Foshan, China, this glossy vinyl film is a versatile product suitable for a wide range of scenarios due to its exceptional quality and performance.

With a minimum order quantity of 3000m per model, the Realsun Deco high gloss PVC foil offers negotiable pricing, making it a cost-effective solution for businesses. The packaging details include rolling the product for convenient transportation and storage, ensuring its protection during delivery.

Customers can expect a delivery time of 15-20 days, with payment terms of T/T 30% down payment and 70% balance before shipment.

The supply ability of 500,000m per month ensures a steady availability of this rigid PVC film for various projects.

Thanks to its high gloss surface treatment, smooth finish, and length ranging from 100m to 400m, this PVC film is ideal for lamination, vacuum membrane press, and wrapping applications. Whether used for furniture, kitchen cabinets, ceilings, or wall panels, the Realsun Deco PVC film guarantees a professional and elegant result.

Moreover, the brand offers OEM and ODM services, allowing customers to customize the product according to their specific requirements. This flexibility, combined with the product's high quality, makes it a preferred choice for interior designers, furniture manufacturers, and construction professionals.
