Product Description

Product Description:

Welcome to our PVC Decorative Film product summary! Our PVC membrane for furniture is a versatile and high-quality solution for adding style and protection to your furniture surfaces. Available in various surface finishes including Glossy, Matt, Embossed, Super Matt, and Soft Touch, our PVC decorative film offers a wide range of design options to suit your preferences.

One of the standout features of our PVC Decorative Film is its non-toxic composition, making it a safe choice for furniture applications. In addition, this product is Anti-Flame, providing an added layer of protection and safety in case of fire incidents. Its moisture-proof properties also make it ideal for use in environments where dampness may be a concern.

With a length range of 100m to 400m, our PVC Decorative Film offers flexibility in terms of the amount needed for your projects. Whether you are working on a small furniture piece or a larger surface area, our film has you covered. The thickness of the film ranges from 0.10mm to 0.50mm, providing durability and reliability in your furniture applications.

Available in widths of 1260mm and 1400mm, our PVC Decorative Film can accommodate various furniture sizes and designs. Whether you are looking to cover a tabletop, cabinet, or other furniture items, our film can be easily applied to achieve a seamless and professional finish.

Enhance the look and longevity of your furniture with our high gloss PVC film. Its sleek and glossy surface adds a touch of elegance to any piece, making it a popular choice for modern and contemporary furniture designs. The PVC membrane foil provides a protective barrier against scratches, stains, and daily wear and tear, ensuring that your furniture maintains its aesthetic appeal for years to come. Whether you are a DIY enthusiast or a professional furniture maker, our PVC Decorative Film offers a cost-effective and easy-to-use solution for transforming and protecting your furniture surfaces. Upgrade your furniture projects with our PVC membrane for furniture and experience the benefits of quality, style, and durability in one innovative product.

Applications:

Realsun Deco PVC Decorative Film is a versatile product suitable for a wide range of applications in the furniture industry. With its high-quality attributes and diverse surface options, this PVC membrane for furniture offers endless possibilities for enhancing interior design aesthetics. Below are some recommended product application occasions and scenarios:

1. Kitchen Cabinets: The Realsun Deco PVC Decorative Film can be used to revamp kitchen cabinet doors, giving them a fresh and modern look. The glossy surface option adds a touch of elegance, while the embossed surface option provides a textured finish.

2. Wardrobes: Transform ordinary wardrobes into stylish storage solutions with the PVC wood grain foil from Realsun Deco. The matt surface option creates a contemporary feel, perfect for modern bedroom designs.

3. Office Furniture: Give office furniture a professional makeover with the Realsun Deco PVC Decorative Film. The super matt surface option conveys a sleek and sophisticated appearance, ideal for creating a conducive work environment.

4. Retail Fixtures: Enhance the visual appeal of retail fixtures such as display shelves and counters using the Realsun Deco PVC Decorative Film. The soft-touch surface option adds a luxurious feel, inviting customers to engage with the products on display.

Imported from Foshan, China, the Realsun Deco PVC Decorative Film boasts a minimum order quantity of 3000m/model, making it suitable for large-scale furniture manufacturing projects. The pricing is negotiable, and the product is packaged in rolls for convenient handling and storage. With a delivery time of 15-20 days, clients can rely on prompt order fulfillment. Payment terms include a T/T 30% down payment, with the balance of 70% settled before shipment.

With a supply ability of 500,000m/month, Realsun Deco ensures a steady availability of PVC Decorative Film to meet the demands of the furniture industry. The product is offered in lengths ranging from 100m to 400m, with thickness options of 0.10mm to 0.50mm. The width variants of 1260mm and 1400mm cater to different furniture design requirements.
