Product Description

Product Description:

The PVC Decorative Film is a versatile product that offers a range of features and attributes to enhance various applications. Ideal for use as a pvc lamination foil, PVC membrane for furniture, or pvc foil for wardrobe, this decorative film provides a durable and attractive solution for interior design projects.

One of the key features of this PVC Decorative Film is its non-toxic nature, making it safe for use in residential and commercial settings. Additionally, the film is anti-flame, providing an added layer of safety and protection. Its moisture-proof properties make it suitable for environments where humidity or moisture may be a concern.

Available in two different widths, 1260mm and 1400mm, this decorative film can accommodate various project requirements. The wide range of surface options, including glossy, matt, embossed, super matt, and soft touch, allows for customization and creativity in design. The PVC Decorative Film comes in lengths ranging from 100m to 400m, providing flexibility for projects of different sizes. With a minimum order quantity of 3000m per model, this product is suitable for both small-scale and large-scale applications.
