Product Description

Product Description:

The PVC Decorative Film is a versatile product that offers a wide range of options for enhancing the aesthetics of various surfaces. With a width of 1260mm or 1400mm, this PVC wood grain foil is suitable for a variety of applications in the furniture, cabinet, door, wall, ceiling, and profile industries.

One of the key features of this product is its availability in different surface finishes, including glossy, matt, embossed, super matt, and soft touch. The high gloss PVC film option provides a shiny and reflective surface that adds a touch of sophistication to any setting. The matt finish, on the other hand, offers a subtle and elegant appearance, ideal for creating a modern and minimalist look. The embossed surface adds texture and depth, enhancing the visual appeal of the material. The super matt finish provides a non-reflective surface, perfect for reducing glare and creating a more subdued environment. The soft touch PVC foil option offers a tactile experience, with a smooth and velvety surface that is pleasing to the touch.

Manufactured from high-quality PVC material, this decorative film is durable and resistant to wear and tear, making it a cost-effective solution for long-term use. With a minimum order quantity of 3000m per model, it is suitable for both small-scale and large-scale projects. Whether you are looking to revamp your furniture, cabinets, doors, walls, ceilings, or profiles, the PVC Decorative Film is a versatile choice that offers endless possibilities for customization and design. The PVC wood grain foil option provides a natural and realistic wood-like appearance, perfect for creating a warm and inviting atmosphere in any space.

Enhance the visual appeal of your interiors with the soft touch PVC foil, which not only looks luxurious but also feels luxurious to the touch. The high gloss PVC film option is a statement piece that reflects light beautifully, adding a touch of glamour to your surroundings. Transform your space with the PVC Decorative Film and explore the endless design possibilities that this versatile product has to offer. Whether you prefer a glossy, matt, embossed, super matt, or soft touch finish, this PVC film is sure to elevate the aesthetic appeal of your furniture, cabinets, doors, walls, ceilings, and profiles.
