## Product Description

### Product Description:

The PVC Decorative Film is a versatile and high-quality product designed for various applications in the furniture industry. Made from durable PVC material, this decorative film is ideal for enhancing the aesthetics and durability of furniture, cabinets, doors, walls, ceilings, profiles, and more.

With a thickness ranging from 0.10mm to 0.50mm, this PVC decorative film offers excellent protection and decorative features. The different surface finishes available include glossy, matt, embossed, super matt, and soft touch, providing options to suit different design preferences and requirements.

Whether you are looking to revamp your existing furniture, cabinets, or doors, or create a new and stylish look for your interior spaces, the PVC Decorative Film is the perfect solution. Its versatility and ease of application make it a popular choice for both residential and commercial projects.

The PVC Decorative Film is commonly used as a PVC foil for wardrobes, offering a cost-effective and efficient way to upgrade the look of wardrobe surfaces. The PVC membrane for furniture is another popular application, providing a durable and attractive finish that can withstand daily wear and tear.

Available in lengths ranging from 100m to 400m, this PVC decorative film offers flexibility and convenience for various project sizes.

Whether you are a furniture manufacturer, interior designer, or DIY enthusiast, this product is suitable for different needs and preferences.

Enhance the appearance and functionality of your furniture, cabinets, doors, walls, ceilings, and profiles with the PVC Decorative Film. Its high-quality PVC material, versatile applications, range of thicknesses, surface finishes, and length options make it an excellent choice for your decorative needs.
