Product Description

Product Description:

The PVC Decorative Film product offers a versatile and high-quality solution for various decorative purposes. With lengths ranging from 100m to 400m and widths available in 1260mm and 1400mm, this product provides flexibility and convenience in application.

Manufactured using PVC material, this pvc membrane foil ensures durability and longevity in usage. The PVC material is known for its strength and resistance, making it an ideal choice for decorative applications that require reliability.

Available in various surface finishes including Glossy, Matt, Embossed, Super Matt, and Soft Touch, this pvc lamination foil allows for customization and creativity in design. Whether you prefer a sleek and shiny surface or a textured and tactile finish, this product caters to a wide range of aesthetic preferences.

In addition to its decorative qualities, this soft touch pvc foil also boasts several practical features. It is non-toxic, ensuring safety and peace of mind in environments where health and well-being are a priority. The anti-flame property of this pvc lamination foil adds an extra layer of protection, making it suitable for use in areas where fire safety is a concern. Furthermore, its moisture-proof characteristic enhances its durability and makes it suitable for application in areas prone to dampness or humidity.

Whether you are looking to enhance the appearance of furniture, walls, or other surfaces, the PVC Decorative Film product offers a reliable and versatile solution. Its combination of durability, customization options, and practical features makes it a valuable addition to any decorative project.
