## Product Description

### Product Description:

The PVC Decorative Film is a versatile product designed to enhance various surfaces with its high gloss finish. Available in glossy, matt, embossed, super matt, and soft touch surfaces, this PVC membrane foil offers a wide range of aesthetic options to suit different preferences and applications.

Constructed from PVC material, this PVC lamination foil is not only visually appealing but also practical with its non-toxic, anti-flame, and moisture-proof features. This makes it a safe and reliable choice for decorating surfaces while providing added protection.

With a width of 1260mm or 1400mm, this high gloss PVC film can easily cover larger areas, making it suitable for a variety of projects and spaces. The generous width options allow for seamless application and efficient coverage, reducing the need for multiple pieces. Customers can benefit from a minimum order quantity (MOQ) of 3000m per model, ensuring that there is an adequate supply for their intended use. Whether for personal or commercial projects, this MOQ provides flexibility and convenience when ordering the PVC Decorative Film.
