Product Description

Product Description:

The PVC Decorative Film, also known as PVC membrane for furniture, is a versatile and high-quality product designed for various applications in the furniture industry. With a minimum order quantity of 3000m/model, this PVC membrane foil is ideal for furniture, cabinets, doors, walls, ceilings, profiles, and more.

One of the key features of this PVC door foil is its non-toxic composition, ensuring a safe environment for both manufacturers and end-users. Additionally, it is anti-flame, providing an extra layer of protection and safety. The moisture-proof attribute of this PVC decorative film adds durability and longevity to the furniture it is applied to.

Available in a range of surface finishes, including glossy, matt, embossed, super matt, and soft touch, this PVC decorative film offers multiple options to suit different design needs and aesthetics. Whether you prefer a sleek glossy finish or a textured embossed surface, this product provides versatility in design possibilities.

With a thickness ranging from 0.10mm to 0.50mm, this PVC membrane foil offers flexibility in application while maintaining durability and strength. The varying thickness options cater to different furniture types and styles, ensuring that you can find the perfect fit for your specific project requirements.

Whether you are working on a furniture manufacturing project, cabinet renovation, door design, wall paneling, ceiling decoration, or profile wrapping, the PVC Decorative Film is a reliable and functional choice. Its combination of safety features, diverse surface finishes, and range of thickness options make it a practical and efficient solution for various furniture applications.
