Product Description

Product Description:

The PVC Decorative Film is a versatile and high-quality product designed to enhance the appearance and durability of furniture surfaces. With a length range of 100m to 400m, this PVC membrane for furniture offers ample coverage for various projects, whether for residential or commercial use.

Available in a range of surface finishes including Glossy, Matt, Embossed, Super Matt, and Soft Touch, this PVC vacuum press film allows for customization to suit different design preferences and applications. The glossy surface provides a sleek and reflective finish, while the matt surface offers a more subtle and elegant look. The embossed option adds texture and depth to the film, creating a unique visual appeal. For those seeking a modern and sophisticated finish, the super matt surface is an excellent choice, while the soft-touch surface provides a tactile and luxurious feel.

With widths of 1260mm and 1400mm, this PVC foil for wardrobe is suitable for a variety of furniture sizes and styles. The different width options allow for efficient usage and minimal waste during installation, making it a cost-effective choice for furniture manufacturers and designers.

The minimum order quantity (MOQ) for this PVC Decorative Film is 3000m per model, ensuring that customers have an adequate supply for their projects. Whether used in small-scale renovations or large-scale production, this MOQ provides flexibility and convenience for ordering and stocking the product.

Manufactured with a thickness range of 0.10mm to 0.50mm, this PVC Decorative Film offers durability and resilience for long-lasting performance. The varying thickness options cater to different furniture requirements, providing the necessary protection and aesthetic enhancement for diverse surfaces.

In conclusion, the PVC Decorative Film is a premium solution for enhancing furniture surfaces with style and functionality. Whether used as a PVC membrane for furniture, PVC vacuum press film, or PVC foil for wardrobe, this versatile product offers a wide range of options to meet various design preferences and project needs. With its flexible length, surface finishes, width choices, MOQ, and thickness range, this PVC Decorative Film is a reliable and effective choice for furniture manufacturers, designers, and enthusiasts alike.
