Product Description

Product Description:

The PVC Decorative Film is a versatile and high-quality product designed to enhance the aesthetics and functionality of various surfaces. With a thickness range of 0.10mm to 0.50mm, this PVC membrane for furniture offers durability and flexibility for a wide range of applications.

Available in various surface finishes including Glossy, Matt, Embossed, Super Matt, and Soft Touch, this PVC wood grain foil provides options to suit different design preferences and requirements. Whether you prefer a sleek glossy finish or a textured embossed look, this product offers versatility and style.

The PVC Decorative Film comes in widths of 1260mm and 1400mm, making it suitable for different sizes of projects and surfaces. The material used is high-quality PVC, known for its durability and versatility in various applications.

One of the key features of this PVC membrane for furniture is its non-toxic properties, ensuring a safe and healthy environment for use in residential or commercial settings. Additionally, the film is designed to be anti-flame, providing an added layer of safety and protection.

Furthermore, the PVC Decorative Film is moisture-proof, making it ideal for use in areas where exposure to moisture or humidity is a concern. This feature ensures that the film maintains its quality and appearance even in challenging environmental conditions.

Whether you are looking to enhance the appearance of furniture, walls, doors, or other surfaces, this PVC wood grain foil offers a cost-effective and stylish solution. Its versatile design options, durable material, and key features make it a practical choice for various interior design and renovation projects.
