Product Description

Product Description:

The PVC Decorative Film is a versatile and high-quality product designed for various applications such as furniture, cabinets, doors, walls, ceilings, profiles, and more. This PVC foil is specially crafted to enhance the aesthetics and functionality of your interior spaces. With a thickness range of 0.10mm to 0.50mm, this PVC decorative film offers durability and flexibility, making it ideal for a wide range of projects. The material used in this product is PVC, known for its strength, resilience, and versatility in applications.

Available in different surface finishes including glossy, matt, embossed, super matt, and soft touch, this PVC decorative film provides options to suit different design preferences and requirements. The soft touch PVC foil, in particular, offers a tactile and luxurious feel, adding a premium touch to your furniture or interior surfaces.

Whether you are looking to renovate your wardrobe, cabinets, doors, or walls, this PVC decorative film is a perfect choice. Its versatility allows for easy application and customization, enabling you to achieve the desired look for your space.

The PVC decorative film is also suitable for use in vacuum press applications, ensuring a seamless and professional finish. With a length ranging from 100m to 400m, this product provides ample coverage for various projects, making it a cost-effective solution for both residential and commercial applications.

Enhance the visual appeal and durability of your furniture and interior spaces with this high-quality PVC decorative film. Whether you are a homeowner, interior designer, or furniture manufacturer, this product offers a practical and stylish solution for transforming your space.

Applications:

Realsun.Deco's PVC Decorative Film, also known as PVC door foil or PVC membrane foil, offers a versatile solution for various application occasions and scenarios. With its origin in Foshan, China, this product is designed to meet the diverse needs of customers in the interior design and furniture industry.

The PVC Decorative Film by Realsun Deco is suitable for a wide range of applications, including but not limited to:

1. Furniture Industry: This product is ideal for enhancing the appearance of furniture pieces such as cabinets, tables, and wardrobes. The glossy, matt, embossed, super matt, and soft touch surface options provide flexibility in design choices.

2. Interior Design: Designers and decorators can use the PVC Decorative Film to add a touch of elegance to interior spaces. Whether it's for wall panels, ceilings, or doors, this product offers a durable and aesthetically pleasing solution.

3. Architectural Applications: The PVC membrane foil can be used for architectural purposes such as cladding, column wraps, and decorative elements. Its versatility in thickness (0.10mm-0.50mm) and length (100m-400m) makes it a practical choice for various projects.

With a minimum order quantity of 3000m/model, customers can benefit from competitive pricing while enjoying the flexibility to order as per their requirements. The packaging details include roll packing for convenience during transportation and storage.

Realsun Deco offers a supply ability of 500,000m/month, ensuring timely delivery of orders within 15-20 days. The payment terms of T/T 30% down payment and 70% balance before shipment provide a secure transaction process for customers.

In conclusion, Realsun Deco's PVC Decorative Film is a high-quality product that caters to the diverse needs of the furniture, interior design, and architectural industries. Its durable PVC material and customizable surface options make it a versatile choice for adding style and functionality to various projects.
