Product Description

Product Description:

The PVC Decorative Film is a versatile and high-quality product suitable for various applications in the furniture and interior design industry. Made from premium PVC material, this high gloss PVC film offers exceptional durability and aesthetic appeal.

With a width of 1260mm or 1400mm, this PVC vacuum press film can easily cover large surface areas with minimal seams, ensuring a seamless and professional finish. Whether you are working on furniture, cabinets, doors, walls, ceilings, or profiles, this PVC decorative film is a perfect choice for enhancing the visual appeal of your projects.

One of the key features of this high gloss PVC film is its non-toxic nature, making it safe for use in residential and commercial settings. Additionally, the film is anti-flame, providing an extra layer of protection in case of fire incidents. Its moisture-proof properties also make it ideal for areas prone to humidity or moisture exposure.

Available in lengths ranging from 100m to 400m, the PVC Decorative Film offers flexibility in usage, allowing you to customize the amount needed for your specific projects. Whether you are a professional interior designer or a DIY enthusiast, this film is easy to work with and guarantees a smooth application process.

Enhance the look and feel of your furniture pieces, cabinets, doors, walls, ceilings, and profiles with this premium PVC decorative film. Its high gloss finish adds a touch of sophistication and elegance to any space, making it a popular choice among designers and homeowners alike.

Invest in the PVC Decorative Film today and elevate the visual appeal of your interior design projects with ease. Durable, versatile, and visually stunning, this high gloss PVC film is a must-have for anyone looking to create stylish and modern interiors.

Applications:

Realsun.Deco.PVC.Decorative.Film is a versatile product suitable for a wide range of application occasions and scenarios. With its high-quality PVC material and various attractive features, this product is ideal for enhancing the aesthetics and functionality of different surfaces.

One popular application scenario for Realsun Deco PVC Decorative Film is in the furniture industry. This product can be used for pvc lamination foil, adding a stylish and durable finish to furniture surfaces. Whether it's for cabinets, tables, or wardrobes, the PVC film offers a cost-effective way to achieve a wood grain finish or other decorative effects.

Another common use of this PVC film is in interior design projects. Designers and decorators can utilize the pvc vacuum press film to create unique wall coverings, ceiling panels, or door surfaces. The moisture-proof feature of the film makes it suitable for areas with high humidity levels, such as bathrooms and kitchens.

For manufacturers in the construction industry, Realsun Deco PVC Decorative Film can be a valuable material for producing decorative panels and profiles. The anti-flame property of the film adds an extra layer of safety to the products, making them suitable for various architectural applications.

Moreover, this PVC film is also popular in the automotive sector for enhancing the interior trim of vehicles. Whether it's for dashboards, door panels, or center consoles, the pvc wood grain foil can provide a sophisticated and durable finish that withstands daily wear and tear.

In conclusion, Realsun Deco PVC Decorative Film is a versatile product that caters to various industries and application scenarios. With its non-toxic, anti-flame, and moisture-proof features, along with a wide range of thickness and length options, this product offers endless possibilities for creating visually appealing and functional surfaces.
