Product Description

Product Description:

The PVC Decorative Film is a versatile and high-quality product designed to enhance the aesthetic appeal of various surfaces. With a width options of 1260mm and 1400mm, this PVC door foil can be used for a wide range of applications in the furniture industry. The minimum order quantity (MOQ) for this product is 3000m/model, making it suitable for both small-scale and large-scale projects.

This PVC membrane for furniture offers flexibility in length, ranging from 100m to 400m, allowing for customization based on specific project requirements. Whether it is for cabinets, doors, walls, ceilings, or profiles, this PVC foil for wardrobe is an ideal choice to add a touch of style and durability to any surface.

Manufactured with a thickness range of 0.10mm to 0.50mm, this PVC decorative film combines practicality with aesthetics, making it a popular choice among designers and manufacturers. The varying thickness options provide versatility in application, ensuring that this product can meet the specific needs of different projects.

When it comes to application, the PVC Decorative Film excels in various settings. Whether it is used in furniture manufacturing, cabinet making, door installations, wall cladding, ceiling design, or profile wrapping, this product delivers exceptional performance and visual appeal. Its durability and resistance to wear and tear make it a reliable choice for long-term use in both residential and commercial settings.

With its high-quality material composition and superior craftsmanship, the PVC Decorative Film offers a cost-effective solution for enhancing the appearance of interior surfaces. Its ease of installation and maintenance make it a practical choice for designers, architects, and furniture manufacturers looking to elevate the visual appeal of their projects.

In conclusion, the PVC Decorative Film is a premium product that combines functionality and aesthetics to transform ordinary surfaces into extraordinary works of art. With its wide width options, customizable length, versatile thickness range, and multiple applications, this PVC door foil is a must-have for anyone looking to add style and durability to their furniture, cabinets, doors, walls, ceilings, or profiles.

Applications:

When it comes to enhancing the aesthetic appeal of interior spaces, the Realsun Deco PVC Decorative Film is the perfect solution. This versatile product, originating from Foshan, China, offers a wide range of applications across various occasions and scenarios.

The soft touch PVC foil is ideal for creating a luxurious and sophisticated look in upscale residential settings such as high-end apartments, luxury homes, and boutique hotels. Its smooth texture and high-quality finish make it a popular choice for interior designers and decorators looking to add a touch of elegance to living spaces.

For commercial spaces such as offices, restaurants, and retail stores, the PVC membrane foil offers a cost-effective way to revamp interiors and create a modern, professional look. The glossy and embossed surface options provide versatility in design, allowing for customized branding and decor themes.

Whether it's renovating existing furniture, cabinets, or fixtures, or creating new custom pieces, the PVC vacuum press film is a practical choice for carpenters, furniture manufacturers, and DIY enthusiasts. Its anti-flame and moisture-proof features ensure durability and longevity, making it suitable for high-traffic areas and environments.

With a minimum order quantity of 3000m/model, the Realsun Deco PVC Decorative Film offers flexibility in meeting project requirements, while the negotiable pricing and packaging in rolls make it convenient for bulk orders and transportation. The delivery time of 15-20 days ensures timely fulfillment of orders, supported by payment terms of T/T 30% down payment and 70% balance before shipment.

With a monthly supply ability of 500,000m, customers can rely on a steady source of the PVC decorative film for their ongoing projects. Available in widths of 1260mm and 1400mm, and thickness ranging from 0.10mm to 0.50mm, this product caters to a wide range of design needs and preferences.

Overall, the Realsun Deco PVC Decorative Film is a versatile and reliable choice for anyone looking to add style, functionality, and durability to interior spaces. Whether for residential, commercial, or DIY projects, this product offers a perfect blend of quality, affordability, and design possibilities.
