Product Description

Product Description:

The PVC Decorative Film is a versatile product that offers a wide range of applications due to its high-quality material and various surface finishes. Made from premium PVC material, this decorative film is known for its durability, flexibility, and ease of use.

Available in two different widths, 1260mm and 1400mm, this PVC decorative film can be used for a variety of projects, from furniture to interior design applications. The different width options provide flexibility in choosing the right size for your specific needs.

When it comes to surface finishes, this PVC decorative film offers multiple options to suit different preferences. Choose from glossy, matt, embossed, super matt, or soft touch finishes to achieve the desired look and feel for your project. The soft touch PVC foil, in particular, provides a luxurious and tactile finish that is perfect for adding a touch of elegance to your designs.

With a minimum order quantity of 3000m/model, this PVC decorative film is suitable for both small-scale and large-scale projects.

Whether you are a DIY enthusiast looking to revamp your furniture or a professional designer working on a commercial project, this product offers the flexibility to meet your specific requirements.

One of the standout features of this PVC decorative film is its non-toxic nature, making it a safe and environmentally friendly choice for various applications. Additionally, the film is designed to be anti-flame, providing an extra layer of safety and protection. Its moisture-proof properties make it suitable for use in areas where exposure to moisture is a concern, such as kitchens and bathrooms.

Whether you are looking to upgrade your furniture with a soft touch PVC foil or create custom designs for wardrobes and cabinets, this PVC decorative film is the ideal choice. Its versatility, durability, and range of finishes make it a popular option for both residential and commercial projects.
