Product Description:

The PVC Decorative Film is an excellent choice for those seeking a versatile and high-quality surface finishing solution. Designed with durability and aesthetics in mind, this product serves a wide range of applications including furniture, cabinets, doors, walls, ceilings, profiles, and much more. Its adaptability makes it an ideal material for both residential and commercial projects, enhancing the appearance and protecting surfaces with ease.

One of the standout features of this PVC Decorative Film is its availability in various lengths ranging from 100 meters up to 400 meters, allowing customers to select the perfect quantity for their specific needs. The film is offered in widths of 1260mm and 1400mm, providing ample coverage for large surface areas without the need for excessive seams. This makes installation smoother and ensures a more seamless and professional finish on any project.

Safety and practicality are key considerations in the design of this decorative film. It is manufactured to be non-toxic, ensuring that it is safe for use in indoor environments where human contact is frequent. Additionally, the film possesses anti-flame properties, enhancing fire safety by reducing the risk of flame spread on coated surfaces. This makes it an ideal choice for environments where fire resistance is a priority. Furthermore, the moisture-proof characteristic helps protect underlying materials from humidity and water damage, extending the lifespan of furniture, cabinetry, and other installations.

The PVC Decorative Film excels as a pvc lamination foil, providing a smooth, glossy, and attractive finish that is both functional and decorative. It is widely used as a PVC membrane for furniture, offering an excellent surface that is easy to clean and resistant to scratches and stains. Its robust construction ensures that it maintains its appearance even under daily wear and tear, making it a preferred option for wardrobes and other cabinetry that require both style and durability.

For those searching for high-quality pvc foil for wardrobe applications, this product offers an ideal solution. It not only enhances the aesthetic appeal of wardrobes but also provides protection against moisture and accidental damage, ensuring that the surfaces remain pristine over time. The film's ability to withstand environmental factors while maintaining its vibrant colors and texture makes it a reliable choice for custom furniture manufacturing and refurbishment projects.

The minimum order quantity (MOQ) for this PVC Decorative Film is set at 3000 meters per model, catering primarily to commercial clients and manufacturers who require consistent quality and quantity for large-scale production. This MOQ ensures that buyers receive a sufficient supply to meet their project demands while benefiting from competitive pricing and reliable delivery schedules.

In summary, the PVC Decorative Film combines practicality, safety, and aesthetic versatility in one product. Its dimensions, ranging from 100m to 400m in length and available widths of 1260mm and 1400mm, accommodate various project scales and applications. The film's non-toxic, anti-flame, and moisture-proof features make it a safe and durable choice for indoor environments, especially in furniture, cabinetry, doors, walls, ceilings, and profiles. Whether used as a pvc lamination foil, a PVC membrane for furniture, or a pvc foil for wardrobe projects, this decorative film stands out as a premium material that delivers excellent performance and lasting beauty.

Applications:

Realsun Deco PVC Decorative Film, originating from Foshan, China, is a premium quality pvc membrane foil designed to enhance the aesthetics and durability of various surfaces. With a minimum order quantity of 3000 meters per model and a supply ability of 500,000 meters per month, this product is ideal for both large-scale commercial projects and smaller customized orders. The packaging is convenient, with each film packed in rolls ranging from 100 to 400 meters in length, ensuring ease of transport and storage. Delivery is efficient, typically taking 15-20 days, with payment terms set at T/T 30% down payment and 70% balance before shipment, making the purchasing process straightforward and reliable.

The Realsun Deco PVC Decorative Film is crafted from high-quality PVC material, offering multiple surface finishes including glossy, matt, embossed, super matt, and soft touch options. Among these, the soft touch pvc foil variant provides a smooth, pleasant tactile experience, making it especially popular for furniture and cabinetry where touch and feel are important. This film is non-toxic, anti-flame, and moisture-proof, ensuring safety and longevity in various applications.

In terms of application, the Realsun Deco pvc vacuum press film is highly versatile. It is widely used in the furniture industry to cover cabinets, doors, and profiles, imparting a stylish and modern look while protecting the underlying materials. Additionally, it is suitable for wall and ceiling decoration, offering an elegant finish that is both durable and easy to maintain. The moisture-proof and anti-flame features make it an excellent choice for environments where safety and hygiene are priorities.

Whether for residential interiors, office spaces, or commercial establishments, the Realsun Deco PVC Decorative Film provides a cost-effective and visually appealing solution. Its variety of surface textures and finishes allow designers and architects to achieve the desired aesthetic effect while benefiting from the material's robust properties. The product's negotiable price and flexible ordering options further enhance its appeal, making it a preferred choice for diverse decorative and functional applications across different industries.
